With what he has purchased along the coast he will have about 35,000 quintals to send to market. During a gale on Tuesday of last week two schooners were driven from their anchorage in vicinity of Chimney Tickle upon the rocks at Cape Charles and became total wrecks. The schooners belonged to Carbonear. The crews escaped. The Home experienced stormy weather throughout the trip, gales of 99 wind together with fog and rain. She had big freights throughout the voyage, a large quantity of lobster and codfish being landed at Bonne Bay. She also brought considerable dried

cod here, and she had several carloads en route to St. John's. The Home sails north again after arrival of to-day's express trains. From now on the Home will have more freight and passengers than she will be able to accommodate, and it s hoped additional craft or a larger ship will be placed on the North-West Coast service for the balance of the season.-Western Star, Aug. 24.
