Hamilton Produces One of the Most Remarkable Cures on Record.

"Totally Disabled," Yet Cured,

"Totally Disabled." Yet Cured.

Hamilton Times, May 27, 1891.

One of the most remarkable cures in the history of medicine has just been effected in this city and the fame of it is fast spreading throughout the land. Over four years ago Mr. John Marshall, then employed as manager of Mr. J. C. Williams' coal oil refinery works here, sustained a fall, which at the time was not thought to be serious. He doctored, but his trouble grew worse, and contracting cold after cold upon his other trouble he was compelled to give up work entirely. His troubles developed into ataxy, a nervous disorder, held by medical authorities to be incurable. For four years Mr. Marshall has been an intense sufferer. He lost the use of a crutch and a stick. Though there was power in his legs there was no feeling. They were like dead weights, cold as ice and not susceptible to feeling. He could take his heavy stick and hammer the flesh until the sound of the blows filled the house. During the course of these years no less than fourteen leading physicians of this city treated him. Sometimes two or three of them were in attendance at once. All agreed that his disease was incurable. Mr. Marshall went to Toronto for electrical treatment at a heavy expense, but received not the slightest benefit. He tried every patent medicine that was recommended to him, yet without getting any aid. The "suspension" treatment was resorted to, and he was suspended by means of appliances around his neck and under his arms from the ceiling of the barn, but got no relief. Electric belts and appliances of an endless variety were tried, and thoroughly tried, too, but all resulted the same way—they left Mr. Marshall just as they had found him. At one time twenty pins were run right into the flesh of his leg. He barely felt two of them; the others he did not feel at all. His flesh was cut into with a knife, and he felt not the slightest pain; and so he went on until the listh day of April last, every remedy suggested by any one being tried, and hundreds of dollars spen

Templars of Temperance. He was passed by the physicians of the order as totally disabled for life. The chief medical ex-aminer passed him, and he was paid the \$1,000 paid by the order in cases of total disability.
