

Deaf for a Year Catarrh in the Head

Caused by
Catarrh is a CONSTITUTIONAL disease, and requires a CONSTITUTIONAL REMEDY like Hood's Sarsaparilla to cure it. Read:
"Three years ago, as a result of catarrh, I entirely lost my hearing and was deaf for more than a year. I tried various things to cure it, but had several physicians attempt it, but no improvement was apparent. I could not distinguish any sound. I was consulting putting myself under the care of a specialist when some one suggested that possibly Hood's Sarsaparilla would do me some good. I began taking it without the expectation of any lasting benefit. To my surprise, however, my hearing began to return. I kept on till I had taken three more bottles, and I am now able to hear perfectly well. I am troubled but can hear perfectly well. I consider this a very little with the catarrh. I consider this a remarkable case, and cordially recommend Hood's Sarsaparilla to all who have catarrh." HERMAN HICKS, 30 Carter Street, Rochester, N. Y.

THE TRIGGER.

CONTEST FOR A DIAMOND MEDAL.
At the last regular shoot of the London Gun Club, Claude won the diamond medal with flying colors, making 24 out of 30. The competition stands to date as follows: Redpath won twice, Claude won twice, Stanley won once, Evans won once and Avey won once. It must be won five times by the same person before its ownership is decided. The weekly shoot takes place to-day.

Some rare shooting took place in the international competition at the Gun Club, Nottingham Hill, on June 20. Fifty-one experts tried conclusions for the Paris cup, valued at \$250, with \$750 added money. Prince Duple Singh won with 20 straight kills, at 244 yards. Don R. Laro was second with 19 kills, while third place went to Sir G. H. L. Buchanan. The winner is son of a Maharajah of India. Don R. Laro is a Spaniard hailing from South America.

ATHLETICS.

OFTEN DROPPED OUT.
Boston, July 6.—The long-talked-of international two-mile foot race between Tommy Connell, the deposed amateur champion, and George W. Orton, champion of Canada and America, was started in the Athletic Club sports Tuesday, but Orton at the end of the fourth lap was so palpably beaten that he dropped out of the race, Connell winning in 10 minutes 21.5 seconds.

F. E. Bacon, the Ashton Harrier, who is coming to this country, added to his laurels to his chaplet at the home track on June 10. He defeated Sid Thomas in a four-mile scratch race in 19:57. Bacon waited on the ex-record holder until a furlong from home, when he cut loose and won, full of running, by five yards. At the Bradford games on June 14 Bacon was allowed ten yards start in the one-mile run from a supposititious scratch man. He rested satisfied with getting within striking distance of the long start division until the stretch was reached, when he closed up and won by half a yard in 4:30.

NO COMMON HOME RUN.

Harvard was at the bat. It was the opening of the memorable game Saturday when the crimson won (6-4) the baseball championship from Yale. Mason, the first man up, knocked out a home run, which looked like this to the New York World specialist:

"After a little ceremony the Yale team took the field, the long and thin umpire and the short and roundball umpire took their places and the struggle was on. At first it looked as though Carter was trying to stand in the box and Carter's nose was at the plate. He came as near doing it as any man on earth, too. It was only a bluff, however, to disguise the whereabouts of the ball, and it did not fool Mason a little bit. Out of the general tangle of Carter's physical hieroglyphics Mason spotted the ball and slammed it away over Laurie Bliss' head in center field. Papa's fair-haired boy saw it coming, but for all practical purposes it might as well have been the Angel Gabriel. Laurie Bliss could not have caught it with his living machine. Nevertheless, he turned his back on all his friends and relations in the grand stand and spiked grass industriously for the suburbs.

"In the meantime the wild and untamed Mason was tearing around the bases like a runaway mule. Every Harvard man and girl on the grounds was standing on tiptoes, shrieking and whooping and knocking each other around in wild enthusiasm. The grand stand was full of bobbing faces, and every bobbing face was full of holes from which their came one prolonged unearthly discord. The Yale men looked with awe upon the fatal Masonian trail, and shrank away down into their shirt collars and said naught. One large round peg-green word would have covered the sum total of their combined thoughts.

"The ball rolled down almost against an outfield post. Notwithstanding its distance from the seat of war, Mason came home under whip and spur. The ball was left at the post."

At Paris on Thursday: Paris 81, Parkdale (Toronto) 112.

At Leeds, on June 20, the Australian cricketers gained the most creditable victory they have achieved since the opening of their present tour. They beat the players of England with six wickets to spare. The match was the thirteenth on the programme of the tour. Of these they have won 5, lost 5 and drawn 3.

The American three-quarter-mile running record of 3 minutes 13 seconds, established by Les Myers in 1882, was beaten at the twelfth annual games of the London Private Banks, Calford Bridge, June 17. The principal competitors were: Harold Wade, last year's champion; W. J. Fowler, London A. C., and E. J. Wilkins. Ranelagh H. Fowler made most of the time in the last lap. The game pair ran locked together until twenty yards from the line, when Wilkins came sprinting along from the rear, and won in the last jump. Time, 3 minutes 12 seconds.

TIPS.

At Washington Park, Chicago, on Wednesday, Wildwood, the \$10,000 California star, won the one mile and 70 yards race by a length, in fine style, with London second, Sweet Blossom third. Time, 1:44.

At Philadelphia, on Wednesday, the close of Piles Stanton, a hail and wind storm broke over the park in all its fury, and in a few minutes about \$6,000 worth of damage was done. The grand stand was unroofed, sixteen sheds were blown down and skeletons and carriages were demolished.

Give It a Thought.

Do you know how the big flags which the loyal citizens unfurled on the Fourth are made?

In an upper back room off Grand street, in New York city, sits a little woman not yet 30; her lower limbs are useless. All day long she bastes and fells the white stars on the blue ground of the national emblem. There are placed on both sides alike, which doubles the number and doubles the work, but does not double the pay; these must be neatly done, too. At this, by working from early morning till 9 o'clock at night, she can make just 80 cents.

Annexation Between the Plodders and Soarers Necessary.

The Danger of Depending on Organization and Numbers.

Interesting Statistics Regarding Previous Conventions—Rapid Growth of the Movement—The Banner-Winner—Future Meeting Places—New Trustees.

MONTREAL, July 6.—The formal opening of the great Christian Endeavor Congress took place in the presence of between 8,000 and 10,000 Endeavorers. Shortly after 10 o'clock A. A. Ayr, the chairman, called the meeting to order and the addresses began. Mayor Desjardins made a brief speech of welcome on behalf of the city. Rev. J. McGillivray, of Montreal, also addressed a welcome to the delegates assembled. Addressing particularly the American delegates, he said:

"The truth is that while we in Canada are quite ready to mount up on wings as eagles, we believe in a whole-hearted annexation to the Christian Endeavor between the eagles and the beavers, uniting in uplifting the soaring qualities of the one with the plodding persistency of the other. If such annexation is not possible, then let us all be eagles at convention seasons and all be beavers when we go back to our several spheres of labor."

Mr. McGillivray was followed by D. A. Budge on behalf of the Y. M. C. A., who, after hearty words of welcome, said: "Let me point to

TWO DANGERS of the present day—the depending upon organizations as a remedy for existing evils and the dependence upon the power which comes from the enthusiasm of the moment. The bringing of young people into living union with Jesus Christ and into the fold of the church is a supernatural work, and requires supernatural power. Organization, however perfect, or enthusiasm, however absorbing, cannot take the place of the Holy Spirit needed for this work."

A. A. Needham, chairman, followed, referring to the way in which both Catholics and Protestants had welcomed the delegates. He expressed the hope that this convention would bring about a closer contact between Americans and Canadians. This remark was greeted with enthusiastic cheers.

To these addresses a response on behalf of the board of trustees of the United Society of Christian Endeavor and the delegates present was made by Rev. P. S. Benson, of Chicago, who recounted the accomplishments of the past and the hopes of the present and future of the Christian Endeavor movement.

It was nearly 1 o'clock when the Endeavorers adjourned to luncheon.

AFTERNOON SESSION.

MONTREAL, July 6.—Big audiences attended the afternoon and evening sessions of the International Christian Endeavor Convention. At the afternoon session at the drill hall Mrs. Alice May Scudder, of Jersey City, presided, and addresses on Junior Endeavor work were delivered by Rev. J. W. Cowan, of Tober, Iowa; Rev. Wayland Hoyt, of Minneapolis, and Mrs. Frances E. Clarke.

At the tent Rev. Mr. Patterson, Toronto, presided, and addresses on the future of the movement were made by Rev. R. S. Milner, of Hummelstown, Pa.; J. Howard Reed, Philadelphia, and Rev. F. D. Power and P. S. Foster, Washington.

AT NIGHT.

The proceedings at tonight's meeting were of an interesting and vast audience assembled at the drill hall and tent to listen to the address of the president, Rev. Mr. Clarke, and the report of Secretary J. Willis Bar. The addresses were delivered in each place. Dr. Clarke, in his address, spoke of the great success of the movement, and the necessity for maintaining the movement. He urged the members of the society, during the coming year, to occupy their minds with the expansion of a larger and more intelligent spirit of patriotism and good citizenship, the enlargement and more practical exemplification of a missionary spirit and the enlargement and cementing of inter-denominational and international friendship.

THE BARBATH AT THE FAIR.
Speaking of the societies' attitude in regard to the opening of the World's Fair on Sunday, Dr. Clarke said, "I am glad for one of the stand the Endeavorers have taken for the Christian and American Sabbath. I believe the course of the society on this question has set an example that we may wisely follow in the future. We have proved for ourselves that we are not boys, whatever our immature people may say. There is a suspicion of lawlessness in that word borrowed from the boys of Old Ireland. We protested and petitioned, we did everything we could as individuals and as a society to save the nation from the threatened disgrace, and now we each one for himself, without judging others, must decide what we will do in regard to going to the exposition. There is no power to compel uniformity or to force the conscience of its members in regard to the World's Fair or any other subject."

STRENGTH OF THE SOCIETIES.
General Secretary Bar, in his report, gives the following statistics showing the strength of the Endeavor societies. The official statement is as follows: New York State still leads with 2,985 societies, Pennsylvania is a good second with 2,681; Illinois third, 1,822; Ohio fourth, 1,706; and Iowa fifth with 1,185.

In Canada, with 1,882 societies, Ontario leads with 1,072 societies. Nova Scotia has 593, Quebec 135, Manitoba 94, and New Brunswick 83.

The growth in the South has been encouraging. Maryland, Tennessee and Texas, each have over 200 societies, and Georgia, Florida, West Virginia and Arkansas, each over 100, with Virginia and South and North Carolina not very far behind.

In England there are over 600 societies, Australia over 525, India 71, Turkey—poor, persecuted Turkey—still has 41 societies, New Zealand 30, Japan 34, Madagascar 32, Scotland 30, Mexico, our neighbors, 22, West Indies 19, Africa 15, China 14, Ireland 10, France 9, Samoa 9, Sandwich Islands 6, Bermuda 3, Brazil 2, Persia 2, and Chili, Columbia, Norway and Spain each 1. In all nearly 1,000 societies in foreign lands, making a grand total enrollment for the wide world of 26,284 local societies with a membership of 1,577,040.

The net gain in local societies is the largest in the history of the movement. The net gain in the number of local societies in 1882 was 6; 1883, 49; 1884, 100; 1885, 97; 1886, 597; 1887, 1,464; 1888, 2,565; 1889, 2,793; 1890, 3,341; 1891, 5,261; 1892, 4,806; and 5,276 is the forward step this last year.

BANNER WINNERS.
The following announcement was made of the banner winners. At St. Louis three years ago a badge banner made up of badges from hundreds of societies, was displayed amid much enthusiasm. According to a suggestion from Minneapolis, brought it to place that banner for one year in the custody of the state, territory or province that should show the greatest proportionate increase in its number of local societies during the year. Oklahoma carried the banner from Minneapolis, brought it to New York, and turned it over to Manitoba, where the Christian Endeavor, like its wheat, is

GRADE NUMBER ONE.
You will remember that at St. Louis it should be made and given at Minneapolis to the state, territory or province which should show the greatest absolute gain in one year. Pennsylvania captured it. Last year she turned it over to Ontario, and this year, will please return it to the Keystone State, as Pennsylvania has even a better record than ever.

THE JUNIORS.
Notwithstanding it is difficult to gather statistics from junior societies, we have accurately enrolled to-day 4,130 junior societies. Illinois has from the start stood first, last year carrying the banner for the largest number of juniors. Montreal, and can return with it, for she has now 433 regularly reported societies. New York is second with 403; Pennsylvania next, 305; Massachusetts has 234 and Ohio 219. Two other junior badge holders have been provided. One will be given to the state, territory or province showing the largest proportionate increase. The other banner will be given for the greatest absolute gain in junior societies and goes to New York.

After the addresses the banners were presented to the successful states. SAN FRANCISCO GETS THE 1895 MEETING.
At a meeting of the general board of trustees of the Christian Endeavor Society, held this evening, it was agreed to hold the 1895 convention in the city of San Francisco, Cal. Denver, which also wanted the 1895 convention, waived its claims in favor of San Francisco. The 1894 convention will be held at Cleveland, O. O.
