CHICAGO, June 13 .- All interest on the board of trade today was centered in the doings of Joseph Leiter, and the results of his famous big deal in wheat. A tremendous slump in prices was kenerally attributed to immense sales for him. According to one authority Mr. Leiter ordered all his trades closed at the opening of the day's transactions in the wheat pit, and that at least 8,000,000 bushels of wheat were liuidated for him in the Chicago it was said, Leiter had his big lines. Cash wheat in Duluth went off 19c, and at Minneapolis 17c. Half an hour before the close Leiter's sales in Chicago were placed as high as 10,000,000 bushels. His brokers, Allen & Greer, transferred June wheat to Armour and September wheat to Lamson Bros. It was reported that a movement was on foot among strong interests to take care of cash wheat, and that a meeting was in session at which this matter was under consideration. Fifteen min-utes before the closing began on the tickers had a report 'Change" that Leiter's cash wheat would be trusted. It was noted that the bankers who had made advances on it had agreed to take care of it. During the final moments of trading Joseph Leiter was at the Illinois Trust and Savings Bank, in consultation with his father and others. Joseph Leiter said, in reoly to inquiries, that he would not make an assignment that his options had been liquidated, and that his cash wheat would be trusted. July wheat in Chicago closed at 79c, against 80c the finish on Saturday. At one me July went down to 75c, and Septembe. closed at 71c—a loss of 3c as compared with Saturday. During the day September went as low as 691/4C. Joseph Leiter admining to friends that Joseph Leiter admiced to friends that he had lost money. Excitement on the board ran high. Stories of financial trouble for the young man who engineered one of the greatest wheat deals in the history of the country gained circulation. However, little credence was given this feverish gossig at first. Mr. Letter was closeted with his father, L. Z. Letter, and when pressed to tell whether the slump in the cereal had affected his interests, frankly admitted that he had lost money How much he would not say. He had not the time to go into details. Conferences were the order of the day. Leiter's wheat interests have been turned over to a board of trustees, who will settle up the deal. This course was necessary on account of Mr. Leiter's inability to put up margins which

were called for. He admitted that his teather had withdrawn his support. An intimate friend of Mr. Leiter, and one who is believed to know considerable about his board of trade business, said this afternoon: "Mr. Leiter has not failed, nor has he made an assignment, and I do not think he will do so. I understand he is arranging to put all his wheat in trust with the banks here, and so prevent stuff from being forced on the market. I am not aware of any cutstanding contracts on the board."

THE G. O. M.

Eulogized by the Congregational Union -Rev. Mr. Madill's Statements Denied

Toronto, June 14 .- At the meeting of the Congregational Union yesterday a resolution was passed acknowledging the great value of the services of the late Mr. Gladstone in the cause of religion and philanthropy, and also on cehalf of Non-conformists.

The business committee recommended the adoption of the following resolution: "That we behold with reverent wonder the crumbling of ancient empires and the extension of the power and influence of that race in which the gospel has most fully developed liberty and manhood. That while we sympathize deeply with our brethren of the same race but of another allegiance through the agonies of war, and while we pray earnestly that these may soon be brought to an end, we rejoice exceedingly that a spirit of mutual loving kindness has re-united the long severed branches of the Anglo-Saxon people. We have reason to hope as we devoutly pray that as the world-wide interests of these two kindred powers assimilate and that as their responsibilities to the human race are more and more found to be alike, the unity of spirit which now prevails between them will become habitual, as united they are able to impose peace and liberty upon the world, and as their disunion would obstruct these, so great bleasings, we pray that co-operation between them. to prepare the way of the Lord and make his paths straight, may become a matter of established agreement and compact.'

Rev. F. B. Hyde, chairman of the committee which considered Mr. Madill's case, challenged the statement appearing in a morning paper as a portion of a statement made to his congregation Sunday by Rev. Mr. Madill, in which Mr. Hyde was represented as saying that if he would give up his membership in the Royal Templars and Masons, the union would drop the charges against him. Mr. Hyde denied that he had ever made such a statement to Madill. The union decided to meet next year

in Brantford.

SAFE-CRACKERS.

Operations Begun at Tackaberry & Co.'s-Harness Shop Burglarized.

Safe-crackers and burglars began operations in London last night, and hose Tackaberry & Co.'s harness establishment on Richmond street as a starting place. Entrance was effected through a window in the rear of the premises, and all the drawers in the store that contained documents of any kind were rummaged.

The safe, which stood outside the office, in the middle of the store, was greatly damaged. A drill had been applied in several places. All round the outer edge of the safe there were marks of the hammer, as though applied for sounding purposes. One hole was drilled nearly through the door The safe contained little cash, as Mr. Tackaberry has of late been taking the cash home with him. The only articles missed from the store were a black leather medical bag and a handsome leather wallet, both of which were taken from the show windows. Twice during the last two weeks has a young man come in and looked at the bag, admired it and went out without buying. There is no clue to the robbers.
