Toronto, Oct. 31.—10 a.m.—Probabili-ties for the next 24 hours for the lower Mr. Tarte Exposes the Duplicity of the Conservative Organizers in lakes region: Increasing easterly to southerly winds; local rains. Montreal.

Tarte, at a meeting last night in his constituency, St. Mary's division of the city, made a complete exposure of an astonishing piece of duplicity and fraud on the part of the Conservative organizers. upon every French-Canadian.
The English Conservatives called this pamphlet an "inflamous appeal to passion," but the fact is that the only thing infamous about it was the quotations from these Conservative papers, for there was nothing else in it. Instead of making a manly repudiation of these sentiments, the Conservative organization here doubled their offense by resorting to a deliberate fraud in order, if possible, to arouse

Tarte party are after? "A villainous device discovered the eve of election. "French-Canadians, beware."

The title-page is so silly that the Conservative party is ashamed of it. The pamphilet talks vaguely about an exation or treason, but does not quote a single sentence from the Liberal pamphlet, to which it purports to reply, for the simple reason that there is nothing of the kind in it. The villainous device is merely a collection of choice items from their own papers. But the document has been sent through the mails tonight to all the English ridings, and a glance at the title plage might lead a reader to form a wrong impression of the Liberal pamphlet. Mr. Tarte has made a timely exposure of the most disgraceful fea-ture of the Conservative campaign, which takes rank with the bogus Globe and Pamphlet No. 6. As he brought out these facts tonight with telling force he was loudly cheered.

SIR WILFRID LAURIER. Sir Wilfrid Laurier spoke in both French and English in support of Mr. Tarte. There are a large number of workingmen in the division, and a grattifying feature of the meeting was nce on the platform of a number of labor leaders, who praised the government for establishing the department of labor and for all it has done on behalf of the working classes.

Despicable Attempt of the Mail to Make Mr. Mulock Appear Responsible for the Valleyfield Troubles.

COTTON WORKERS

[Montreal Witness.]

Under the title of "Bayonets for Workmen," the Toronto Mail and Empire has an article on the Valleyfield strike. The object of the article is to deceive the workingmen of Ontario who may not be acquainted with the circumstances of the strike, by leading them to believe that the Dominion Government sent the troops to Valleyfield to dragoon the strikers and compel them to submit to their employers, the Cotton Company. "How do the workingmen of Canada," it asks, "like the system of 'thorough' the government is supplying to the settlement of They are getting a labor disputes? taste of it in Valleyfield." It is a little hard on the cotton men that the Torento Mail-the Toronto Empire-the Mail and Empire, the paper for whose continuance in one or other of its phases they were repeatedly assessed should thus accuse them of tyrannizing over the workmen with the aid of the Liberal Government. The and Empire goes on to insinuate that the newly-created Labor Bureau at

Ottawa, which has been added to Mr. Mulock's department, somehow failed to settle the dispute between the company and its employes. It knows per-fectly well that the Labor Bureau has had nothing whatever to do with the trouble, and that it could not intervene unless its services were requested, of which there is no evidence. The

Mail and Empire would evidently have preferred to mislead by insinuation, but seems to have found it necessary "Having failed to make any impres sion on the situation through its Labor Department, the government de termined to see what could be done by means of its Militia Department, and 100 men of the Royal Scots were sent down to stop the strike. This mode of pacifying the strikers was apparently not more successful than was the of hod of 'sunny ways' employed by the Minister of Labor. Since 100 troops

were insufficient to awe the strikers, 200 more were sent. The discontented workingmen must be made to underfrom the Huntingdon, Quebec, Glean- stand that they belong to what is now er, and in view of that fact, the fol- a department of government, and that lowing extract from The Gleaner of they must consider themselves as Oct. 25 is significant: "The Toronto completely subject to that department completely subject to that department as the Indians of the Northwest are subject to the Department of the Interior. I. Wm. Mulock, is ruling over them, and that autocrat has a theory that the laborer is hardly worthy of What willful falsehoods are uttered in these lines! The government did

not attempt to settle the dispute through the Labor Bureau, as it had no opportunity of doing so, and consequently it did not fail in doing so. The government did not now determeans of the Militia Department. The volunteers were called out through the resort of the municipal officials Vialleyfield, elected by the people Valleyfield, to the system which is everywhere in operation throughout the British Empire, whereby on the petition of three or more magistrates to the local commanding officers of the district asking for the militia to support the local police or constables in maintaining law and order, as a scientific rule, does not know of the calling out Scientific of the militia until after they are out and even if it does hear, has no choice but to comply with the petition of the magistrates. In this case, as it hap pens, the chief magistrate of Valley field is a Conservative and he, among others, did his duty and signed the petition. The workingmen can judge of the quality of the Mail and En pire's article by its assertion that they are to understand that they are subject to the Labor Bureau just as the Indians are subject to the Department of the Interior. Surely there is no intelligence so developed as to be decided by such stupid nonsense with regard to an arbitration bureau conceived entirely in their interests. The best interests of both workingmen and employers of labor are made subservient to passing political exigencies by the use of such language as that the following sentence from the Mail and Empire's article which represents

the government as taking the side of the employer against the workingmen workingmen to get more wages than they can otherwise persuade their emwidow and five children. King, deputy minister of labor, and editor of the Labor Gazette, has been in Valleyfield, and after conferring with the strikers and the cotton company, has brought about a settlement of the trouble, thus proving the great benefit to the workers of the conciliation work of the labor bureau, and the utter falseness of the charges of the Mail and Em-
