TORONTO, Jan. 5.—The Board of Trade

Pavilion Music Hall was an unqualified
success in every way. The covers were
laid for 650 guests, and when the president
entered at 8 o'clock there were not half a
dozen seats vacant. The hall was very
tastefully decorated. A model of a
railroad train, with station, semaphore,
telegraph poles, etc., complete, and a
number of model houses and steamboats,
with other apt tokens of trade and commerce
being prominent in the decoration.The banquet was opened by Lord Stanley,
who said that it was a pleasure to him

The L. and P. S. R. Deal
Awaits the Council's
Action.No. 1 Committee and the Cleveland
Agents Agree.The Committee Recommends the Agree-
ment, Which Will Doubtless be Rat-
ified Saturday—The Ohio Coal Com-
pany Are the Lessees—London To Be
Made a Distributing Center—An En-
ormous Traffic Assured.The Advertiser has news to announce
which will be welcome to every resident of
London.Mr. Charles Jones, representing the
Cleveland capitalists who have been ne-
gotiating for the lease of the London and
Port Stanley Railway, is in the city, and
will likely stay here until the contract is
an established fact. Last night he
and his solicitor, Mr. Ivey, had a
conference with No. 1 Committee of the
City Council, and as a result Mayor
Spencer has called a special meeting of
the Board of Aldermen for Saturday night,
when, it is safe to assume, the deal will
be completed. The committee and Mr. Jones
came to a perfect understanding last evening;
every term in the proposed agreement
was made mutually satisfactory, and the
committee will recommend the council to
ratify its action. Mr. Jones has \$25,000 in
cash ready to deposit with the city treasurer,
as the requisite guarantee, as soon as
the bargain is struck.The Advertiser has learned from outside
sources that this deal is fraught with
far greater importance to the city of
London than has been supposed by the public.
Recent developments have made it so. One
of the largest and wealthiest coal corporations
of Ohio some time ago purchased two
large ferry boats from the G. T. R. for the
purpose of supplying Western Ontario
with Ohio coal. The company intended
running these boats to some point along
the north shore of Lake Erie, and had
already decided upon the route via Port
Stanley. The deal now being made will
enable the city to secure the coal at a
lower price than it could otherwise obtain.

secure the coal at a lower price than it
could otherwise obtain.The deal will also enable the city to
