SARNIA, July 11.—Members of Sarnia, Port Huron and District Orange Lodges, 1,000 strong, will board a special train of ten coaches at the Cromwell street depot Tuesday morning for London for the big 12th of July celebration. The Orangemen, accompanied in many cases by their wives and children will spend the day in the Forest City and the special will leave there for this city at 7:45 in the evening.

Story is Doubtful.
A report appearing in a Toronto paper that John Stone and Norman Coulter, who escaped from the jail farm in that city on Friday, while guards and prisoners together were fighting the fire at the barns, had been arrested in Sarnia on Saturday was "news" to both the city police and provincial officers here. They stated they had heard nothing of the reported capture. Grand Trunk detectives were also unable to confirm the story.

The recent rains have proved very beneficial to the crops in this locality and were the means of saving the oat crop, which otherwise would have been a complete failure. The oat straw will be short. The corn, which had been suffering from lack of rain to such an extent that the leaves were curling up, has revived. The potato crop has been much improved also.

Miss Copeland of Belmont has been engaged as junior teacher of Thorndale High School.

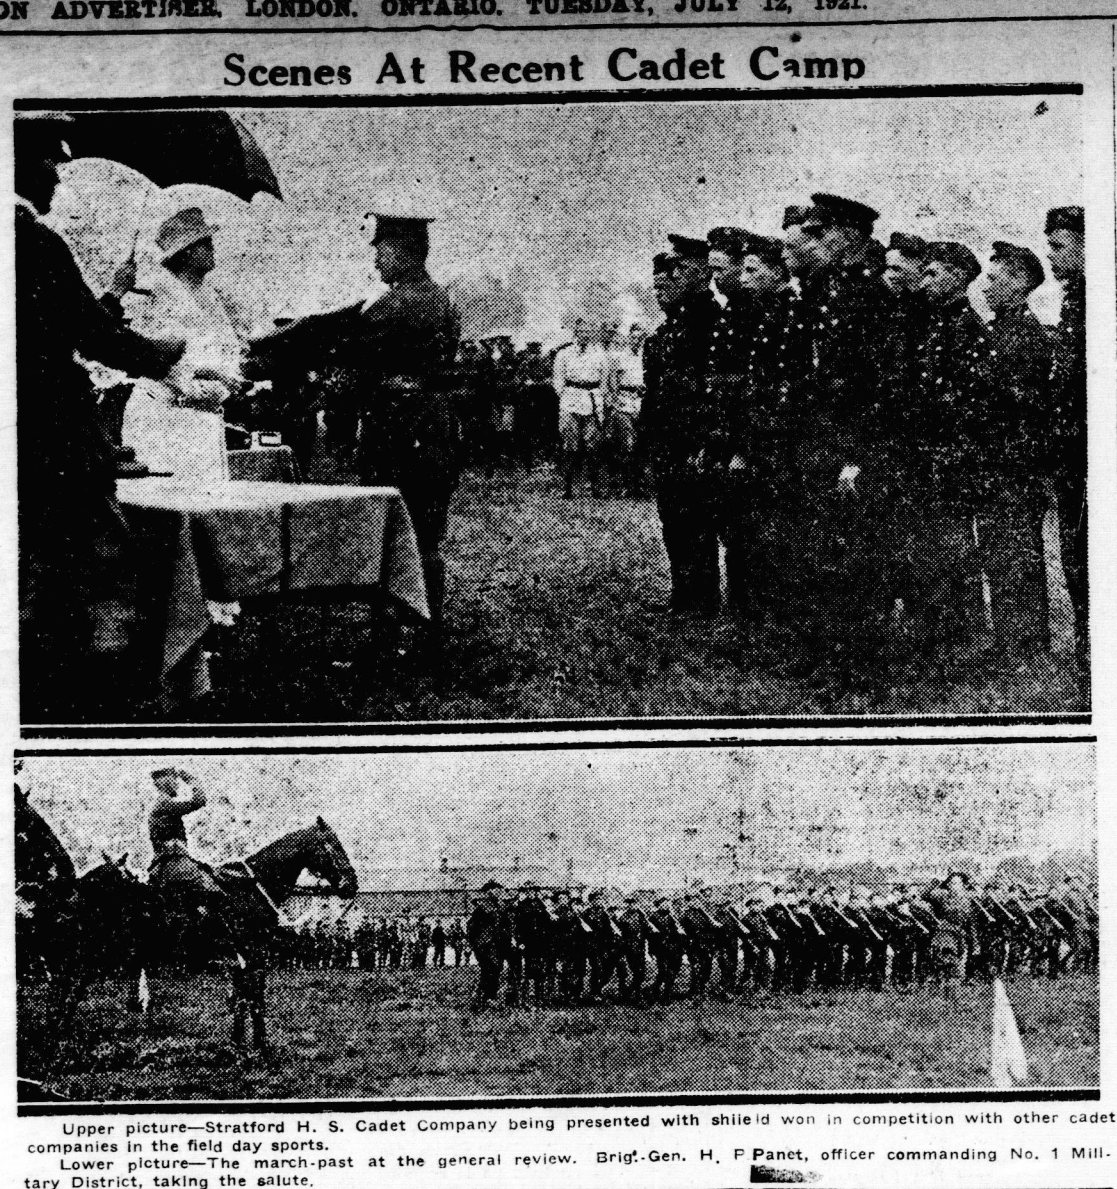

The Thorndale Public Library Board purchased a consignment of books on Monday.

JAMES R. STEELE IS NAMED ASSISTANT

WOODSTOCK, July 11.—James R. Steele, senior clerk at the local post-office department, has been appointed assistant postmaster. The local new assistant entered the office here eleven years ago, and since that time has steadily merited promotion. He succeeds the late T. A. McLeneghan.

Many men are out of work here at the present time due to the closing down of five local factories indefinitely. But not many of these men wish to work on a farm. A local bureau for employing labor for farms was opened here recently, but up to date only two men have applied, and received positions. From the number of inquiries from farmers for help from the bureau it is estimated that one thousand men and boys could be placed in employment throughout Oxford alone. Men are wanted to complete the haymaking, others to help harvest the wheat and the following cereals.

VISIT WILL MAKE FOR CO-OPERATION
American Delegates Warmly Welcomed On Arrival At Falls.

NIAGARA FALLS, Ont., July 11.—That the visit to Canada of the 160 delegates of the Great Lakes-St. Lawrence Tidewater Association would result in the establishing of a greater degree of co-operation between Canada and the United States was stated by Sir Robert Borden today in welcoming the delegates to Canada on behalf of the Federal Government. The inspection of the proposed deepwaterway, which commenced at Niagara Falls on Saturday afternoon, was continued today, when, as the guests of the Canadian people, the visitors from the United States were given an opportunity of inspecting the old and new Welland Canal. Sir Henry Drayton, minister of finance, Hon. J. D. Reid, minister of railways and canals, and W. A. Bowden, chief engineer of the department, explained the project. The trip over the canal was made by electric car from Niagara Falls and Thorold. The delegates landed aboard the steamer Cape Eternity at Port Weller and continued the inspection until evening.

UNVEIL MONUMENT.
The unveiling of a monument at Thorold in memory of American soldiers who were killed in the battle of Beaver Dam in the war of 1812-13 featured the journey this morning. This monument was erected by the I. O. O. F. of Thorold after the finding of the bodies during the construction of one of the Welland Canals. Mrs. David Walker, regent of the Thorold Chapter, unveiled the monument.

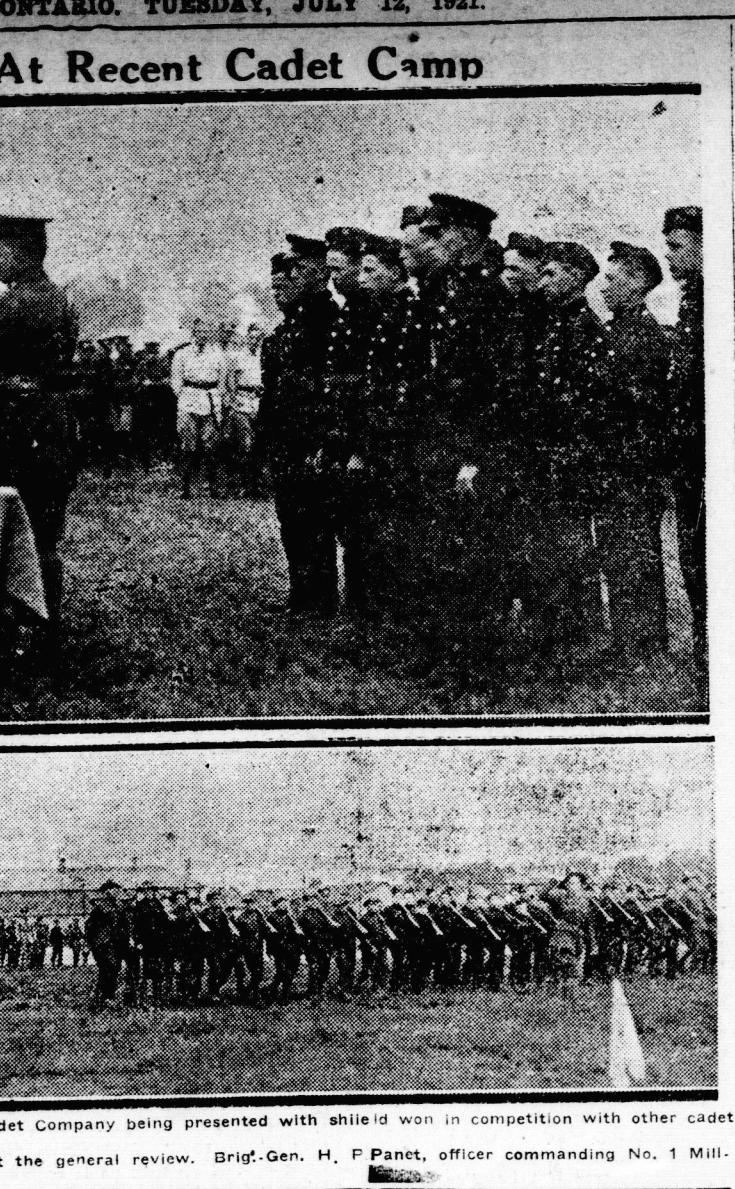

Governor McMaster of South Dakota stated the appreciation of all Americans of the feeling which had prompted the presentation. "The erection of this monument required great vision," he said. "There is no parallel in all the annals of history."

COUNTY LOSSES ARE NOT HEAVY

Several Bridges and Culverts Will Have To Be Rebuilt.

ST. THOMAS, July 11.—Superintendent Pineo of the county good roads system finds that the storm of yesterday has left the highways, bridges and culverts in a fairly satisfactory condition. The worst damage is around New Sarnia, a couple of bridges were knocked off their abutments, several culverts are to be renewed. The "flood-in" sections generally had a bad night of it, but on the whole, Superintendent Pineo declares that it might have been worse.

The township of Yarmouth will be the greatest sufferer in the damage to the public works and destruction of crops. The water of Catfish Creek rose about ten feet, with the result that a few of the bridges crossing the creek were more or less damaged. The flats along the route of the cloudburst are being cleared of the rushing waters and by tomorrow a more exact estimate of the losses by the flood may be determined.

Objects To Chinese Boss.
Objection is taken by some white ratepayers to the new laundry at the Amasa Wood Hospital being placed under the supervision of a man from China.

WILL LAY MAINS AS LOCAL IMPROVEMENTS
CHATHAM, July 11.—The laying of water mains in this city in the future will be done under the local improvement plan. Heretofore the work has been done by the board of works and the expense taken out of the general funds. In cases where water mains pass vacant property it has been rather costly to the city, as not sufficient revenue was forthcoming to pay the carrying charges. The new plan was adopted today, when, on recommendation of the water board, the council announced that several mains would be put in under the new plan.
