SPECIAL TO THE COLONIST AND CHRONICLE.

The Second Cable.

Heart's Content, Sept. 2.—The news of the successful picking up of the Atlantic Telegraph cable of 1865, reached here at forty-five minutes after 6 o'clock this morning. The expedition with the Great Eastern had been out 24 days, and all hope of success had been abandoned by the telegraph people here. The news reached Valentia at forty minutes past five o'clock, one hour and five minutes before it was received even here. Signals are sent through the cable with perfect accuracy. They are talking with the Great Eastern every moment via Valentia, Ireland. In a few hours after the recovery of the cable, a splice was made with the cable stowed in the main tank of the Great Eastern. The reeling out of the cable into the sea, immediately took place and the big ship is now paying out the wire and approaching Heart's Content on her return, with the same speed she maintained on the late expedition. She was distant 700 miles when she began to pay out. The Telegraph fleet is expected here next Saturday.

Eastern States.

New York, Sept 1st.—The Pioneer steamer of the Pacific Mail Steamship Company's line to China, leaves here on the 1st of October.

Chicago, Sept 2.—The President arrived at Niagara Falls, at half-past four yesterday afternoon.

Philadelphia, Sept 2.—The Southern Unionist Convention meet to-morrow; about six hundred delegates have already registered their names. Indications show that it will be fully attended.

Europe.

Paris, Sept 1st.—The Emperor Napoleon, in a letter written to King Victor Emmanuel on the 11th of August, rejoices that the era of peace has returned; he says he accepted the cession of Venetia from Austria in order that the people of that country might be enabled to choose their own destiny. The Emperor adds that he has framed his influence in favor of humanity, and the best interests of the people of Venetia and Italy.

St. Petersburg, Sept. 1st.—The Russian Government, prior to the negotiations for peace in Germany, proposed to the French Emperor and other powers that neutrals should participate in the territorial changes occasioned by the results of war. It was not supported by France, and the Czar refrained from officially moving in the matter, reserving, however, liberty of action to himself in the future. No local news of interest.

Liverpool, Sept. 1.—Noon.—The Royal Mail steamship China sailed to-day for Halifax and Boston, with 153,000 pounds in gold for the United States.

London, Sept. 1st.—Evening.—Consols closed at 89 1/2; 5 20's, 73 1/2. Money market unchanged.

The London Times, in a review of the questions arising between England and America, growing out of the recent war in the United States, and more recent raids by Fenians into Canada, urges the British Government to take into immediate consideration the feasibility, if not necessary, of so extending the provisions of the neutrality laws as to hold the different governments to strict account for all acts in violation of that law committed by the subjects of each.

Vienna, Sept. 1.—The terms of peace between Austria and Italy are in rapid progress toward settlement; it is generally believed that peace will be finally and fully consummated between these powers in ten days.

Paris, Sept. 2.—The Minister of Foreign Affairs, M. Drouin de L'Huy, has resigned. M. Montheillon succeeds him.

Berlin, August 31.—Evening.—The Grand Duke of Darmstadt refuses the Prussian treaty, and Upper Hesse is likely to be annexed to Prussia.

China.

It was feared at Amoy that the Amoy schooner Golden Pearl was lost with all hands on the night of the 12th or 13th of June, while on her voyage from Tamsui to Amoy. A fisherman picked up some tin cases belonging to one of her passengers, of whom there were several on board. H. M. S. Perseus had steamed out to make further search; it is feared that other casualties had occurred during the same storm.

The news of the revolt in Kansen is confirmed, and Manchou, the capital, famous for its tobacco, was taken about a month ago. The troops of Manchou availed themselves of the Governor General's absence at Kingchow, whither he had gone to quell an incipient revolt. They took possession of the city and declaring themselves Mahomedans, seized the officers of the Treasury. According to some reports, the Judges endeavored to force them to memorialize the Emperor, to the effect that the troops were driven to revolt from want of pay and food. Great numbers of mandarins and gentry committed suicide, as usual, to prove their non participation in a movement which they were powerless to restrain.

It is reported that the Imperialist forces have had another successful encounter with Nienfer rebels near Tangner, a town a short distance to the south of Tsing Kiangpu, and that a body of insurgents, 9,500 strong had been forced to retire.

CURES AND COMFORT FOR THE BED-RIDDEN.

—BY—

Holloway's Ointment.

"This wonderful Ointment acts like magic in relieving and curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures. It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of the Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore natural circulation, and excite the discharges. For the above complaints Holloway's Ointment and Pills are infallible aids.

Diphtheria, Bronchitis, Sore Throats, Coughs and Colds.

his class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficacy and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scoury.

This Ointment is a certain cure for Ringworm, Scabby Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway's Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained.

Dropsical Swellings.

To beware of this dangerous and stealthy complaint which frequently creeps upon us by slight aqueousness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer from Piles and similar complaints when they might get Holloway's Ointment with instant relief, and effect permanent cures without the annoyance of explaining their ailment to any one.

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases:—

- Bad Legs, Cancers, Ooctracted and Scalds, Bad Breasts, Stiff Joints, Sore Nipples, Burns, Elephantiasis, Skin Diseases, Scurvy, Pustules, Sore Throats, Sore Heads, Tumors, Ulcers, Wounds, Yaws, Gorns, (Soft) Rheumatism.
