general tone of speculation was dull and inclined to weakness on account of lower cables and poor prospect of export business. Wheat had an early break of half cent and became lifeless till near the close, when a report that British fleet had gen ordered to the Dardanelles caused a buying by shorts on which market reacted and closed steady. The cash demand was very slack and gave no promise of early improvement. Clearances were nearly two million bushels less than last week in wheat and flour, which, considering the lower prices asked, is a rather bearish argument.

L.COFFEE&CO ESTABLISHED 1846. Choice spring wheat, also red and white winter for sale in car or cargo lots. Samples sent and prices quoted on application. 38 Church-street, Toronto.

Kennett, Hopkins & Co. to R. Cochran: Corn and oats ruled somewhat easier, but closed about as they did yesterday. Receipts of corn are falling off, but the eastern export demand is hardly as good as expected, and in the west new corn will soon take the place of oid corn for consumption. Very light trade in oats and little change in prices. There was some show of strength, due possibly to covering by shorts, though there were indications that Armour was on the buying side to a moderate extent, it was admitted, from first to last.
