

Stock-Taking Sale of Oddments

Stock-taking ferrets out remnants and oddments in every department throughout the store. It is needless to say that we have no use for these short ends and odd lots and the price asked for them is only a fraction of their real worth. Space will not permit full mention of the many pre-inventory bargains which are being offered these days. You must see to appreciate.

The Na-Dru-Co. Almanac for 1912

A good almanac is ever welcome. The annual number of the Na-Dru-Co. Almanac, the 1912 edition, now out, is if anything more interesting and more useful than its two predecessors.

Besides the usual solar and lunar tables and dates of eclipses, the Na-Dru-Co. Almanac gives much information which it would be difficult to find elsewhere. Examples of this are the Map of Altitudes, Time Tables of the World, Figures on Area, Population, Exports and Imports, Records of Canadian Premiers, Governor-Generals, etc.

Nearly all leading Druggists have copies of the Na-Dru-Co. Almanac for their customers, or it may be had by writing the National Drug & Chemical Co., of Canada, Limited, Montreal.

at \$6.40 to \$6.75. For anything of decent quality, in fact, the market is not only strong, but has every appearance of remaining so for some time to come. There is apparently the very keenest competition for the cattle now feeding at the distilleries and in the barns throughout the province.

According to reports going around the market very tempting offers from large buyers have been refused by holders of cattle, who figure out, presumably, that prices are likely to go much higher as the spring advances.

HER DAUGHTER SAVED

Stricken With Acute Rheumatism—Recovery Scarcely Expected.

Mrs. Dolina J. Lawlor, writing from Oxbow, Sask., says: "I would be lacking in gratitude if I did not write you and let you know of the wonderful good your Dr. Williams' Pink Pills have done for my daughter, Belle Lawlor. Indeed, I think I may safely say that they have been the means of saving her life. For many years my home has been in Bruce Mines, Ont. Something over a year ago my son and daughter, then in her sixteenth year, left for the west. When leaving here my daughter was in the best of health, but in the following spring she was stricken with what the doctor said was inflammatory rheumatism in its worst form. After a few weeks she was able to get up, but her hands and limbs were so swollen that she could not dress herself. She continued in this way for some time, and then a second attack, worse than the first, set in, and my son telegraphed me, as she was very low. While I was getting ready to make the trip of eighteen hundred miles I got a second message to come at once, as they feared she could not live. When I reached her I found her even worse than I had expected. She was so weak and emaciated that I would not have known her, and she could only speak in a whisper. Her hands and fingers were all twisted and her limbs swollen to twice their natural size. The doctor had then been attending her for two months, and she seemed steadily growing worse. We did not dare move her in bed, for fear of her heart giving out. She was as pale as a corpse, and her lips and face always cold. We had to fan her continually, and if we ceased even for a little while she would gasp for breath, and no one who saw her thought it possible she could get better. She suffered such pain that I used to go out of the room and put my fingers in my ears to shut out her gasping and moaning. I had known before of Dr. Williams' Pink Pills, and as we could gradually see her sinking I told my son I was going to give her the Pills. He was opposed to my idea for he thought a change in the medicine might prove fatal. However, it was finally decided to give her the Pills. In a week's time she showed some improvement and felt like eating. From that time on she began to gain steadily. Gradually her hands and fingers became straight, the swelling of the limbs went down, and her heart-beats became regular, and the color returned to her face, and soon the cure was complete. She is now as strong and healthy as any girl of her age, and to see her you would never think she had passed through an illness from which none of her friends thought she could recover. You have my sincere thanks for what Dr. Williams' Pink Pills have done for my daughter, and you may be sure I shall always warmly recommend them."

Messrs. McPhee and Forester, of Parkhill, discovered Mr. John McIntosh lying on the road, almost buried in the snow, last Thursday. The worst blizzard of the season was raging, making the roads almost impassable. The drifts became so troublesome that Mr. Forester went ahead of the team on foot to shovel a path. His foot touched something solid, which upon investigation proved to be a man. He was placed in a sleigh and removed to the Arlington House, Parkhill, and Dr. Wilson was called. He found that Mr. McIntosh's both hands were badly frostbitten. It is supposed that he was tipped out of the cutter and was overcome while lying in the snow.
