CHOP STUFF

Not Required. Stranded Ford Driver: "I say do you know anything about Fords?" Man in Overalls: "Yes a few good jokes." A 15-year-old Ridgeway boy will stand trial for sending his uncle a "Black Hand" letter, threatening him if he did not immediately leave town. Official figures show that Ontario is educating annually about 680,000 pupils and is paying 17,000 teachers' salaries. The estimated average cost per pupil per year is \$80. Assuming that every pupil attends school for at least ten years, the cost of education in this province is \$800 per pupil. The Demonstrator. "What are you crying for, my little lad?" "Cause favor's invented a new soap substitoot, an' every time a customer comes, I get washed as an advertisement." Judge Lennox, in the Supreme Court sessions in Sarnia on Monday, consented to a settlement by Imperial Oil, Ltd., whereby \$2,500 was awarded the family of the late Jas. Furvia, London Road, whose life was lost in a kerosene explosion which destroyed the home last fall; \$1,500 goes to the widow and \$1,000 to the two infant children. Mr. W. A. Wilson, Enniskillen township road superintendent, was in Hagersville on Friday and left an order for fifty carloads of half and three-quarter inch crushed stone, to be delivered at the stations of Holmsdale, Glenrae, Oil City, Oil Springs and Wanstead. Three carloads will be left at the last named station for use on the north part of the township. Last year the Glenrae division experimented with ten carloads, the residents of that district unloading and distributing it free of charge to the township. They were so well pleased with the results that they will repeat the performance this year and have been given an extra two carloads. The cost per car is about \$100.

Statistics prepared by John Farrell immigration inspector at London to determine whether genuine agriculturists are coming from Europe, show that of 1400 men located in Middlesex and adjoining counties during 1924, nearly 75 per cent. became permanent residents of rural parts. Of the remainder some are in Canadian cities, but the majority crossed the border into the United States.

Mrs. Isabel James, of St. Thomas, has collected \$600 damages from the C. P. R., Atchison, Topeka & Kansas Railway and the Santa Fe Railway, she having been put off a train at a lonely point in Arizona by a conductor who disputed the validity of her ticket. She had to remain at the way station for eight days while she wired home and received money with which to buy a new ticket. It was contended by the railways that she had come home by a route not sanctioned by her ticket.

Mr. Robert McVicar, of Brooke, has a hen which is the proud mother of a very unique family, they being seven wild ducks. One day while at the back of the farm, Mr. McVicar came across a wild duck setting on eggs. He gathered them up and took them home setting them under a hen. A week later the young birds hatched out and now the seven healthy young ones are having a great time rambling around the barn yard with the other domestic fowl.

The awkward looking individual entered an ice cream parlor and purchased a chocolate cone, and went out on the sidewalk to enjoy it. Presently he reappeared with the empty cone and handing it to the astonished clerk he said, "Thank you for your vase."

The township of Euphemia may be small, but what it lacks in size it makes up for in endeavoring to populate the rest of the country which has a larger acreage and perhaps not the next week three more were born. This is surely a record and is surely worthy of special mention. And to cap it all our local M.P. B. W. Fansher comes along with twin boys born to him and his wife.—Alvinston Free Press.

Children Nearly Poisoned. While playing around the vacant lot west of the St. Mary's Creamery a number of youngsters found a small phial containing strychnine amongst a pile of rubbish. The bottle was labelled, but the youngsters were too young to realize the deadly nature of the white powdery contents and immediately set to work to play about with it. One of the children, a lad of five or six years, conceived the idea of administering the medicine to the other children and accordingly they all held out their hands and received a goodly portion of the bottle's contents, which some immediately applied to their mouths. Strychnine being of exceedingly bitter taste, soon caused the children to spit the stuff out with haste, but one little girl, the daughter of Mr. and Mrs. Fred Clark apparently swallowed some of the stuff, with the result that she became violently ill and had to be attended by a doctor. The child was soon restored to health, but the incident might easily have ended with tragic results. In future citizens when cleaning out their shelves should take good care that no poisonous or other harmful liquids or powders are thrown out, as children are always ready to investigate bottles, etc.

The Petrolia Advertiser-Topic will issue a special Old Home Week edition next week consisting of four-sections of eight pages each—32 pages profusely illustrated with scenes of Petrolia, past and present.

Fight fans down in Panama had a novel entertainment in the fighting ring on Sunday evening staged by two women pugilists. "Knock-Out" Maria, of Chile, was given the decision after eight rounds of pummelling "Batling" Rosa, of Colombia.

"If you always gave me full swing," observed the pendulum, "you would never have any trouble with your hands." "O, I don't know," replied the clock. "If it wasn't for your going back and forth in my works I'd never have any strikes."

Mr. John McMaster of St. Mary's, received a box of pheasant eggs from the Fish and Game Department of the Government, which he intends to hatch out by the use of a hen. The Government supplies the eggs free to anyone who guarantees to hatch and care for the birds.

Disenchanted. She stood beside me in the car: Her form was tall and slender; No blemish did her beauty mar; Her eyes were blue and tender, Her dress was perfect; hat and shoes Had cost a tidy sum. I heard her speak. "Say, Mag, did you see Swipe all of that there gum?"

Fire originating in a Chinese laundry destroyed practically an entire business block in Hagersville on Sunday night. Damage is estimated at \$120,000 with approximately half covered by insurance. Lack of adequate water supply and with one chemical engine exhausted, local fire fighters were powerless until outside aid was obtained from Hamilton, Cayuga and Jarvis.

Brush the mud off your car markers. Traffic officers, especially in the cities and on crowded highways, are checking closely on misplaced markers, with a result that scarcely a day passes without a number of motorists being brought into police court and fined \$5 for having their markers obstructed.

The officers of Wawanosh chapter Royal Arch Masons, of Sarnia, paid a fraternal visit to Vimy chapter at Inwood last Monday night and bestowed the Royal Arch degree. About twenty made the trip by automobile and the Vimy brethren gave them an enthusiastic welcome and provided good entertainment. A sumptuous supper was served to the Sarnia officers after the degree work.

Requisite on the Farm—Every farmer and stock-raiser should keep a supply of Dr. Thomas' Eclectric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colic it far surpasses anything that can be administered.

The storey-and-a-half frame residence of Mr. Stanley McLachlan, on the sixth sideroad of Brooke, was destroyed by fire on Friday morning last, the cause originating it is supposed from the kitchen stove. Mr. McLachlan had started a fire in the range, and had gone after a pail of water to the barn yard. He was gone a few minutes, and when he returned the whole house was on fire, he only managing to get two chairs from the building. All other valuables, such as clothing, furniture, etc., was totally destroyed. It is thought that a spark from the stove had fallen to the floor and as everything was very dry at the time, the fire quickly did its work of destruction. The loss is partly covered by insurance.—Alvinston Free Press.
