Winnipeg Woman HAD LOST HEART
Treatments and Medicines Seemed to do Mrs. Grasser No Good. Health Restored.
"I have taken seven bottles of Tanlac and am now feeling just like a new woman," said Mrs. C. Grasser, 394 Kennedy St., Winnipeg, Man.
"Three years ago my stomach got out of order and troubled me ever since. I was informed that I had a chronic case of indigestion, and was treated for that, but kept getting worse. I reached the point where I had no appetite and simply dreaded to eat on account of the misery I suffered afterwards. There was a lump-like feeling in the pit of my stomach and often I became so nauseated I could scarcely retain anything. My left side hurt me so I couldn't lie on it and it was a struggle for me to breathe. I simply felt like I was going to smother. I also suffered with sick headache just about all the time and was so nervous and restless I hardly slept a wink.
"I had just about reached the point where I thought I was never going to get any better when I read about Tanlac and decided to give it a trial. I did not see much improvement until I had finished my third bottle, but after that I got well rapidly. I am now enjoying the best of health and am glad to add my voice to all the others who are praising Tanlac."
Tanlac is sold in Bridgetown by S. N. Weare, and by leading druggists everywhere.

KEEP LITTLE ONES WELL IN WINTER
Winter is a dangerous season for the little ones. The days are so changeable—one day bright, the next cold and stormy; that the mother is afraid to take the children out for the fresh air and exercise they need so much. In consequence they are often cooped up in overcrowded, badly ventilated rooms and are soon seized with colds or gripes. What is needed to keep the little ones well is Baby's Own Tablets. They will regulate the stomach and bowels and drive out colds, and by their use the baby will be able to get over the winter season in perfect safety.
