CHATHAM FANNING MILLS.

**BAGGING
ATTACHMENT**

For Chatham Fanning Mill.

This cut represents a new machine and is an attachment for bagging the grain as it comes from the Fanning Mill. It is complete in every respect, and will give the best of satisfaction to those who use it.

A few points in its favor are these:
It turns very easy.

Takes up very little extra room on the floor.
Fourteen inches square space on the floor will hold the machine, and any farmer can spare that from his barn or granary.
Will bag any kind of grain, from the finest

seed, such as timothy and clover, up to the coarsest grain, such as beans or corn.
Will bag from 60 to 80 bushels of wheat per hour, 100 bushels of oats per hour.
Your grain does not go to the floor, thereby saving considerable waste.
Two men with the bagger will do the same work as three without it.

It can be attached to any Chatham Mill manufactured during the last four years.
This machine is worthy the inspection of all farmers.
