

PITCH PINE FORESTS.

The *Timber Trades Journal* says there is one export commodity from the United States, however, which defies competition, and may be counted on to flow steadily towards this country in *secula seculorum*, and that is the pitch pine of the Southern States. From the accounts that have at various times appeared in these columns, and the recent statements of our special correspondent on the spot it appears that the forests of this timber are practically inexhaustible, as they are in a constant state of rapid reproduction by the new saplings everywhere arising to replace the old trees, and the swamps in which these forests delight to flourish offer no temptation to the husbandman to clear them away. Thus, unlike the forests of the north, they may be accounted perennial from the natural tendency of the land to reproduce them, and the want of motive to destroy the undergrowth for the sake of cultivating the land which produces it, and which civilization is not likely to require for ages yet to come.

Saw Logs Seized.

An Ottawa despatch says that four officers of the Quebec Provincial Police, in charge of Constable Burke, arrived at Buckingham by the North Shore train from Quebec, to aid in suppressing lawlessness prevailing among timber drivers on the Du Lièvre. It appears that some land proprietor, through whose property a branch stream runs, has, in imitation of Mr. McLaren, refused to permit the passage of logs, and has engaged a gang of men to prevent the operations of men engaged in timber driving. Another report says the trouble arose from the absconding of a certain contractor or paymaster, and the lumbermen have taken possession of certain quantities of timber which they declare they will hold until their wages are paid in full.

Chatterbox.

We have received the January number of the *Original English Chatterbox* from the American publishers, Messrs. Estes & Lauriat, Boston, Mass. This is the children's magazine, par excellence; containing 32 pages, and 16 full page illustrations each month. It has more than a million readers in England and America. For one dollar sent by a new subscriber, directly to the publishers they will send, post paid, *Chatterbox* for one year and a beautiful steel engraving of a little girl puzzling over her first sum, and entitled "Ought and Carry One." The engraving is 18x24 inches, and sells for \$3.00, thus giving every new subscriber \$4.00 worth for \$1.00.

Bridging the St. Lawrence.

The *Northwestern Lumberman* says a bill has been introduced into the New York Legislature to incorporate the St. Lawrence River Bridge Company, for the purpose of constructing a bridge across the great river from Wadlington, St. Lawrence county, New York, to a point in Dundas county, Canada. It will be about a mile long, resting in part on an island. It is intended that the Adirondack railroad extension into the Dominion shall cross on this bridge, and the completion of both road and bridge would open up a heavy lumber line between Ottawa and Albany.

HAGYARD'S YELLOW OIL is at the head of the list for all purposes of a family medicine. It is used with unprecedented success, both internally and externally. It cures sore throat, burns, scalds, frost bites; relieves, and often cures asthma.

"AND fools who came to scoff remained to pray."—We receive many letters from those having tried while doubting, yet were entirely cured of dyspepsia and liver troubles with Zepesa, Clergymen write us earnestly to it wonderful effects.

POPULAR DEMAND.—The great superiority of Down's Elixir, over all other cough remedies, is attested by the immense popular demand for that old established remedy for the cure of Coughs, Hoarseness, Croup, Asthma, Bronchitis, Whooping Cough, and all diseases of the throat, Chest and Lungs.

WHEN DOCTORS DISAGREE, WHO SHALL DECIDE?—Nothing is more variable than the different opinions of medical men; but when they fail to agree, or to perform a cure in a chronic disease, the patients often decide for themselves, and take Burdock Blood Bitters, and speedily recover. It is the grand key to health that unlocks all the secretions, and liberates the slave from the captivity of disease.

LUMBER WANTED.

50,000 Feet Tough White Oak, 50,000 Ft. White Ash, 50,000 Feet Rock Elm, all first quality, quote price at Arr station, to be delivered by August, 1882. Specifications furnished on application

OTTAWA RIVER.

Grenville & St. Anne Canals.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Timber for Lock Gates" will be received at this office until the arrival of two Eastern and Western mails, on THURSDAY, the 11th day of MAY next, for the furnishing and delivering on or before the 3rd day of October, 1882, of Oak and Pine Timber, sawn to the dimensions required for the construction of Lock Gates for the new Locks at Greece's Point, Grenville Canal, and the new Lock at St. Anne, Ottawa River.

The timber must be of the qualities described, and of the dimensions stated on a printed bill which will be supplied on application, personally or by letter, at this office where forms of tender can also be obtained. No payment will be made on the timber until it has been delivered at the place required on the respective canals, nor until it has been examined and approved by an officer detailed to that service.

Contractors are requested to bear in mind that an accepted bank cheque for the sum of \$300 must accompany each tender, which shall be forfeited if the party tendering declines to enter into a contract for supplying the timber at the rates and on the terms stated in the offer submitted.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted. This department does not, however, bind itself to accept the lowest or any tender.

By order,

F. BRAUN,
Secretary.

Department of Railways and Canals,
Ottawa, 16th April, 1882. 1L0-3405-law

HYDROLEINE

(HYDRATED OIL.)
An artificially digested
Cod Liver Oil.

For Consumption,
Winter Cough, Affections of the Chest and all Wasting Diseases.

Prescribed by the leading physicians of England, the United States and the Dominion of Canada.

A WONDERFUL FACT.

HYDROLEINE mixes perfectly with water, showing a complete artificial digestion of the oil, and just as the HYDROLEINE mixes with the water, so does it mix with the liquid contents of the stomach, and enters immediately into the system to nourish and build it up. The efficacy of HYDROLEINE is not confined to cases of Consumption, as from its valuable tonic effect on the nervous system in addition to its special stimulating action on the organs concerned in the production of Fat in the body, it causes marked increase in weight in persons of naturally thin habit, who do not present any evidence of disease.

Unlike ordinary preparations of Cod Liver Oil, it produces no unpleasant eructation or sense of nausea, and should be taken in such very much smaller doses, according to the directions, as will ensure its complete assimilation; this, at the same time, renders its use economical in the highest degree.

For sale by all Druggists.
