

# **SAVES TIME AND PATIENTS**

The greatest auxiliary to any form of medication in anaemic and consumptive cases is live, healthy blood.

## ***BOVININE***

is the arterial blood of the vigorous bullock, antiseptically prepared by cold process, and sterilized. It makes new and enriched blood quicker and better than any other known agent. There is a prompt increase of red cells and haemoglobin in the blood, together with rapidly improving strength and functions, shortly after administration is begun. A postal will bring you our scientific treatise on topical and internal administration, and reports of hundreds of clinical cases.
