### Appearance— No Sign of Pen Value

To many of the millions of pen users most pens *look* very much alike. So you should be guided by some safer criterion than *looks*.

The safest gauge of value is success. So purchasers of Esterbrook Pens (successful for over half a century) have the comfortable feeling that satisfaction is assured.

No. 313 shown here is only second in popularity to the famous Jackson Stub, No. 442, having a slightly broader moderately elastic, medium point.

Send 10c for useful metal box containing samples of the twelve most popular Esterbrook Pens, including the famous 048 Falcon, the most popular pen in the world.
