It is reported that the International Coal Mines, of Cape Breton, belonging to the Jacques Cartier Bank, of Montreal, have been leased at an advance of \$4000 per annum.

Ottawa, Jan. 30.—The debate on the second reading of the Pacific Railway bill opened to-day with a speech by Sir Charles Tupper. The Opposition have three amendments to move, and there is no telling how long the discussion will last.

Lumbering operations are being carried on quite extensively at Mills Village, Queens County, N. S., this season. Mr. S. Cole expects to put in about 2,000,000 feet for Henry Mack, Edward H. Freeman will have in about 700,000 feet. James M. Uhlman 250,000 and Joseph Mauthorne 200,000.

At a meeting of the Maitland Marine-Insurance Company, held at Maitland on the 27th ult., a dividend of twenty-five per cent. on the paid up capital was declared for the past year. The following Board were re-elected: Nelson Murphy, President; Chas. Cox, Archibald McCollum, Alfred Putnam, Isaac Douglas, Joseph Monteith and James K. Blair; Hon. A. M. The steamer "Edinburgh," which sailed for London, G. B., Saturday, took among her cargo nearly 40 head of cattle and about \$6000 worth of meat butchered at Amherst. NEWS FROM ABROAD.

London, Jan. 27.—A despatch from Valparaiso says the blockade by the Chilean fleet of the port of Callao has been raised.

St. Petersburg, Jan. 29.—Gen. Skobloff is organizing a flying column to pursue the Turcomans and also advance to Morv.

Dublin, Jan. 27.—At a meeting of the Land League in this city to-day, Mr. MacKen, one of the jurymen in the State trial, was, on motion of Mr. Davitt, elected a member of the League.

Berlin, Jan. 27.—A great many German agriculturists are earnestly complaining against the importation into Germany of American productions, which they say seriously affects their interests.

London, Jan. 27.—A despatch from Berne, Switzerland, states that a violent earthquake shock was felt there to-day. The houses were badly shaken, some of the larger edifices sustaining injuries by cracks in their walls. One of the churches shook so violently as to cause apprehension of its fall.

London, Jan. 27.—A despatch from the Cape of Good Hope has arrived, bringing important news. A British patrol from Pretoria had surprised and captured a Boer cooiger. The capture was not accomplished without severe fighting. The Boers lost fifty killed and wounded, and afterwards fled. The British lost ten killed and wounded.

Durban, Jan. 29.—An officer justin from the front, reports: "The troops on the left wing rested within six miles of the enemy's position. Gen. Colley then moved to the right, with the 58th Regt. The Boers then opened fire on the 58th, and the latter repulsed them. The Boers were then strongly reinforced, and gave a terrible fire, when fighting became general, with desperate losses on both sides."

His suggestion, however, was taken for what it was worth. What followed, however, aroused an indignation which, though silent, was nevertheless deep. He denounced the clergy of the Church as lacking in missionary spirit, being behind the "sects" (he did not, of course, say "sects"—catch him). This indeed, I think, we must allow, has some degree of truth in it, but it is a charge he is rather late in making and not in place. It would have come with better grace from some one who was himself a missionary—one who knew what it was to live on a small pittance, and yet had to face the storms of winter and the tropic heat of our summers doing a work for Christ and His Church, unnoticed and unknown, to tramp the snows, and be willing, or at least constrained, to lay down in that snow and die within sight of home nearly, as did that St. Augustinian, whom you of the Provinces had once among you. Had it been one of this stamp that was so speaking in their words, his words might have been entertained for consideration; but coming from one who has a good income, who knows no temporal care, whose dress is that of a "west end" gent. and whose work is not among the slums or patricians of a great city, not even among the mansions that tenant the property of St. James', Toronto, it was not thought to be worth the notice. And to wind up, this gentleman tells the audience "that the Church of England is rapidly decreasing everywhere in England, and making no progress here." How far the latter is true, we will not undertake to say; but to think that the former is true, by any one who reads ordinary ecclesiastical intelligence will not be so easy, when one knows how press at it people, Bishops and Priests have told us of what noble work is being done in England, of Churches increasing by the score, of contributions large, frequent and liberal made from individuals and congregations, of new mission fields opened abroad, of missions among the "roughs" inland or on the sea-board at home, one cannot see how all this can co-exist with a rapid decrease, or a decrease at all. And we are glad to know that the Bishop of Montreal (through the city papers that gave report of what Mr. R. said kept a designed silence as to what the latter said), told the audience that "he did not believe it"; the figures Mr. R. based his remarks on were unreliable, &c. Probably they were made in the interests of the Nonconformist party in England. However that may be, it was unbecoming in Mr. R. to give publicity to such stuff. One wonders why such an one, who is no believer in Apostolic succession, who regards Bishops as mere figureheads or "administrators," and that not of the sharpest, can stay in a Church that lacks, as it is reported he also said, courage and adaptation to times and places. The result of this missionary meeting is told to have been anything but encouraging for future ones. Let us hope, however, that this will not act as a deterrent, but as a counter irritant, and "as every fall is a fall upward," this unfortunate meeting will teach those that have these things in hand not to ask men to speak on missionary work who are not engaged in it themselves, and who, it may be, are known to the world only because they are so unlike others of their class.

A Clerical Association has been organized for the County of Shefford. The first meeting took place in the Parish of Waterloo.

As a proof of its being different from other preparations, it has EFFECTED CURES AFTER OTHERS HAVE FAILED. For one of the many such cures see certificate of Mr. Archibald below.

In order to avoid having this Cream classed with Emulsions, Mr. Eggar will in future call his Cream PHOSPHOLEINE.

The following certificates are from persons who have learned the exact state of their cases from the physician who attended them during their illness, and know beyond a doubt that they were cured by the use of Eggar's Cream...

Attention is particularly called to the case of Mr. Harrington. His physician says that the case was an unusual example of Tuberculous Infection of the Lung or Incipient Consumption, and that his is one of the few cases that has ever been cured.

Read the certificate of Mr. O'Reilly, of that celebrated and extensive institution, the Toronto General Hospital, where Eggar's Cream was tested in wasting and other diseases during a period of several months, and after such evidence in its favor the most impartial will be satisfied that EAGAR'S CREAM is superior to all in the cases for which it is recommended.

MR. M. F. EAGAR, Halifax, N. S. DEAR SIR—Last winter my son aged six years, caught the whooping cough. The disease settled on his lungs, and for a while we almost despaired of his life. Our doctor advised me to give him your Cod Liver Oil Cream with hypophosphites, and under its use he completely recovered. Yours truly LEWIS DIMONK.

DEAR SIR—Last summer I was troubled with a Cough, and my physician advised me to give him your Cod Liver Oil Cream with hypophosphites, and under its use he completely recovered. Yours truly E. R. HARRINGTON.

MRS. CHIPMAN, Willow Park Halifax, begs to add her testimony in favor of Eggar's Cod Liver Oil Cream. Having suffered from an affection of the lungs, for several years past together with most distressing symptoms of Phthisis, and having tried almost every known remedy, many of which were or has relieved the cough and depression, was at length recommended to try Eggar's Cod Liver Oil Cream, which she did, with immediate relief, and henceforth she is cured. It reduced the cough, relieved the pain and depression, improved the appetite, and increased flesh and strength. Mrs. Chipman considers Eggar's Cod Liver Oil Cream an invaluable medicine, and would recommend all persons suffering from weakness or Phthisis to try its use, for it has the same effect upon others as it has having upon her, there is no estimate to its advantages upon the health and spirits of the patient.

MR. M. F. EAGAR, Halifax, N. S. DEAR SIR—During the fall of 1876 I contracted a severe cold, which settled on my chest causing inflammation of the lungs. For the next two years I used many different preparations, including the Emulsion of Scott's Emulsion, and a so-called "Pain Expeller" but found no relief. At length, however, I gave a trial to your Cod Liver Oil Cream, and found it to be a most valuable medicine. It gave me a hearty appetite, and enabled me to do my work. I have very gratefully benefited by it, and would strongly recommend it to one and all who may be similarly afflicted. Being convinced that the ingredients contained in your Cream are what is necessary for rebuilding of either weak or diseased lungs. Yours, gratefully, ISAAC ARCHIBALD, D.

MR. M. F. EAGAR, Halifax, N. S. DEAR SIR—It is with pleasure that I can recommend your Cod Liver Oil Cream with Hypophosphites. In every case it has met my expectations, and is the best preparation of the kind that I have ever used; some of my patients come to me like the taste, and now call it pleasant, which is very greatly in its favor. Enclosed please find Post Office Order for \$3.00, to balance my account to date, and oblige me by sending another gross. Yours very truly F. A. TEFFT, M. D.
