CONVEYING WORDS OF HOPE TO THE AFFLICTED.

HAD SUFFERED FROM HEART TROUBLE AND LIVER COMPLAINT, WHICH WRECKED HEB NERVOUS SYSTEM-IS NOW AS WELL AS EVER.

From the Carleton Place Herald.

Truth, it is said, is sometimes stranger than fiction, and in no way has this phrase been better exemplified than in the plain unvarnished statement of Mrs. W. H. Edwards, of Carleton Place, to a reporter of the Herald a few weeks ago. Mrs. Edwards is well known in this town, having lived here for nearly twenty-five years. The story she related we will give in her own words. She said: "In July of 1894 I was taken ill with fever, caused by blood poisoning, and laid hovering between life and death for eight weeks. After the doctor had succeeded in breaking up the fever, my heart began to trouble me, jaundice and liver complaint also set in. I could not sleep and my nerves were terribly unstrung. During my illness, after the fever left me, I was attended by no less than three doctors, but their medicine seemed of no avail as I lay for months in a terribly emaciated condition and never expected to be around again. This state of affairs lasted until about Christmas, when a friend suggested to me to try Dr. Williams' Pink Pills. My husband procured a few boxes and I then began their use although with but little confidence in them. By the time I had used three boxes I began to feel a little better and began to get an appetite. This encouraged me to persevere in the use of the pills, and I still continued to improve. I began to sleep well, my heart ceased to bother me and my nervous system which had received such a fierce shock was again fully restored. My liver trouble also disappeared, in fact I became almost a new creature. I now feel as well as I ever did in my life. I have used in all eight boxes and still continue to take an occasional pill it I feel any way de-pressed. Yes, she said, I am thankful to think that I tried Dr. Williams' Pink Pills because I believe no other medicine could have effected such a cure in me and have so effectually built me up. I am perfectly willing that this simple statement of mine should be published, and hope some poor suffering creature may see it and be restored to health as

Dr. Williams' Pink Pills make pure, rich blood, thus reaching the root of disease and driving it out of the system, curing when other medicines fail. Most of the ills afflicting mankind are due to an impoverished condition of the blood, or weak or shattered nerves, and for all these Pink Pills are a specific which speedily restore the sufferer to health. These nills are never sold in any form except in the company's boxes, the wrapper round which bears the full name " Dr. Williams' Pink Pills for Pale Peo-All others are counterfeits, and should always be refused. Get the genuine and be made well.

#### The Live Stock Markets.

LIVERPOOL, July 14.—There seems to be no let up to the weak feeling in the for which the demand is good, and sales market for cattle, and prices scored an- were made freely at \$1 to \$1.50 per barrel. other decline to-day of Ac to 1c per lb., which makes a drop of 1c to 2c in the last two weeks. The supplies were 2.087 white and 605 colored. Following heavy, and this coupled with very hot are the sales:—Thos. Watkins, 60 white weather caused trade to be very had and at 65c; Wm. Cook, 50 colored at 6-13-16c; sales were exceedingly slow. Best light J. K. McCargar & Co., 215 colored at 61c; States and Canadians sold at Sc to 9, while | Hodgson Bros., 100 white at 65c; Morheavy beasts were unquotable and almost | den Bird, 60 white at 65c; and 5 white impossible to cash. On the other hand the market for sheep was firmer and the inside figure shows an advance of le as compared with last week, choice stock selling at111c to 12c.

A private cable received from Liverpool stated that the market was demoralized and quoted choice Canadians and

Americans at Sc to 9c.

Another private cable from Liverpool also quoted best American and Canadian cattle at Sc to 9c, and stated that the prospects for sheep were bad, quoting least at 11c.

Messrs. John Olde & Son, live stock salesmen, of London, Eng., write Wm. Cunningham, live stock agent, of the Board of Trade, as follows:—Really choice cattle were scarce at Deptford today. The supplies consisted of 1,127 States cattle, 692 Canadian and 410 South American. Small prime States cattle sold rather dearer; also did the best Canadian, but South American did not sell so well, as the assortment was indifferent. Choice States cattle made 43d to 5d; heavy and middling qualities, 4fd to 41d; Canadian, 41d to 43d; South American, 3d to 31d. The sheep sup-plies consisted of 2,016 clipped sheep from South America, which sold rather better at 5½d.

Montreal, July 14.—The cable advices to-day were perhaps the most deplorable ones ever received in the history of the Canadian live stock export trade, owing to the fact that they recorded another decline of 1c to 1c per lb. in prices for choice cattle, which makes a drop of 1c to 2c in the past two weeks, and are now probably lower than ever known before. At this date last year choice cattle in Liverpool were selling at 11c to 111c, or 2c to 31c per lb. higher than what they realized to-day, and even at the above prices some very heavy losses were made, but, of course, shippers paid considerably more money for their stock in the country as compared with what they are paying to day, however, a shipper stated that he lost \$10 per head, and, at the same time, said that was nothing compared with what others were dropping. The season, so far, is, without a doubt, the worst on record, and the prospects tor any improvement in the near future for any improvement in the near future are poor. In regard to sheep, cables were conflicting and very far apart in prices. Some of them reported the trade firmer, while others said the prospects were bad. The exports last week were 3,844 cattle and 1,810 sheep, as against 3,328 cattle and 3,352 sheep for the same week last year. The trade in cattle to-day for export account was very slow and 31c was port account was very slow, and 31c was the top price paid for really chei e steers, while at country points shippers are paying 81c to 31c for stall-fed stock.

The sheep trade is dull, and it is likely to continue so without prices improve abroad. In regard to ocean freight rates there is an easier feeling in the market, but no actual change has taken place, although some shippers state that in the face of a decline of 1c to 2c per lb. ip the price of cattle that they do not see anything to warrant such high rates that are now ruling. All the freight for this week has been engaged at 40s to 45s, and the estimated shipments of cattle are

4,200 head. At the Montreal Stock Yards, Point St. Charles, this morning, the receipts of cattle were large, including fifteen cars for local use. The demand for cattle from local buyers was limited, owing to the very warm weather, and, in consequence, trade in this line was dull and few sales were made. Owing to the very discouraging cable advices from Glasgow and London at the latter end of last week, and the fact that these two market places w re glutted with stock, which depressed values very much, con-sequently the demand here to-day for export stock was limited, and only a few sales were made. The tone of the market on the whole was easier in sympathy with the recent weakness in the Toronto market, and prices were lower. Export cattle sold at 31c to 31c, and butchers' stock at 2c to 3c per lb. live weight. The weak feeling in the market for live hogs continues and prices have scored a further decline of 15c to 20c per 100 lbs. The r-ceipts to-day were light, there being only 300 on the market, for which the demand was slow and 31c was the very outside figure for choice lots, and as low as 3c was accepted for culls.

The offerings of live stock at the East

End Abattoir Market were 550 cattle, 200 streep, 300 lambs and 300 calves. Owing to the extreme heat which prevailed and the fact that but here bought pretty freely last week, the attendance was not as large as usual, and as the demand from shippers was of a very limited character the market on the whole was dull and considerable was left unsold. A few very choice steers and heifers sold at 31c to 31c, and other sales were made at prices ranging from 2c to 3c per lb. live weight. Sheep also met with a slow sale and prices were easier at 21c to 3c per lb. The demand for lambs was good and as the supply was just about equal to the demand prices were firm at \$2 to \$3.50 each, as to size and quality. Calves were little enquired for and prices ruled lower at from \$1 to \$7 each, according to quality.

#### The Produce Markets.

The cheese market continues dull and is extremely difficult to quote in the absence of extensive transactions. Offers of outside lots of Western were made today at 7c, and this is certainly an extreme figure, while Quebec makes range from

16 to 64.

The butter market is quiet and demand is hardly sufficient to develop any distinct tendency. Shippers are buyers at 16c to 16 c.

There was no change in the situation of the egg market. The demand was better to-day for small lots and a fair trade was done on the basis of 91c to 101c for choice candled stock, and Sc to Sic for culls per dozen.

The market for beans was dull, and prices are nominally unchanged at 70c to 75c in car lots, and at 80c to 90c in a jobbing way.

The receipts of new potatoes are liberal, July 14 BELLEVILLE, Ont., Cheese Board to day 33 factories offered at 6 11-16c.

INGERSOLL, Ont., July 14.—Offerings 4,147 boxes balance June make. Sales, 510 at 64c. Balance holding for same price. Market quiet.

Prisoner (desirous of flattering the Conrt). I think that there is a fine expression in your honour's face. Judge (urbanely): So there is, and the fine is forty shillings and costs.

Ladies, whoever claims your hands, by all means surrender your feet to our shees.

### Ronayne Bros.,

Felt Like Flying.

BLANK, N. Y., Jan. 1894.

I couldn't sleep nights and was so nerrous that I felt like flying day and night; when I closed my eyes it seemed as if my eyebalis were fairly dancing to get out of my head; my mind ran from one thing to another, so that I began to think I had no mind. When I had taken Fastor Kornig's Nerve Tonic only two weeks I felt like a new man, and now consider myself cured. Have recommended the Tonic to others, and i always had the desired effect.

W. H. STERLING.

A Minister's Experience.

Capac, Mich., Jan. 1894.
On account of my vocation and sickness in the family I suffered considerably from nervousness and sleeplessness, and often severe headachs. Since I took one bottle of Pastor Koenig's Nerve Tonic I am entirely free from above troubles.

HOG CHOLERA IN GLENGARRY

The prompt action of Mr. A. G. McBean, the proprietor of Thornhill Farm, Lancaster, in killing his herd of some two hundred hogs, among whom hog cholera had made its appearance, cannot be too highly commended. A short time ago Mr. McBean purchased 200 hogs in Western Ontario and brought them to Lancaster to fatten for market. They soon began to show signs of disease, and as the local veterinary was unable to check its progress, Dr. Baker, the Dominion Government veterinary officer at Montreal, was sent for, and at once pronounced the disease hog cholera. He recommended the slaughter of the remainder of the herd, 58 having already died, and on his report the Dominion Government advised to that effect, and the hogs were killed. Sixty were found to be more or less affected by the disease. Every possible means was taken to prevent the spread of contagion. The hog pens were burned, the fences fumigated, and no crop will be taken from the field for four years Mr. McBean will receive from the Government one-third of the value of all the hogs that were affected with the disease and two-thirds of the 2027 Notre Dame Street. | value of those that were not.
