

IT'S A MILLSTONE

About a young man's neck to be a sufferer from nervous exhaustion, nervous debility, impaired memory, low spirits, irritable temper, and the thousand and one derangements of mind and body that result from, unnatural, pernicious habits, contracted through ignorance. Such habits result in loss of manly power, wreck the constitution and sometimes produce softening of the brain, epilepsy, paralysis, and even dread insanity.

To reach, re-claim and restore such unfortunates to health and happiness, is the aim of the publishers of a book written in plain but chaste language, on the nature, symptoms and curability, by home treatment, of such diseases. This book will be sent sealed, in plain envelope, on receipt of ten cents in stamps, for postage. Address, World's Dispensary Medical Association, 663 Main St., Buffalo, N. Y.

Recent British politics has brought into use the word "disestablishmentarianism"—24 letters; probably the longest manageable word in the language. "Straightforwardness," 19 letters, is the longest in reasonably common use. It doesn't sound long, having but four syllables.

The Russian naval authorities have not been slow to take advantage of the lessons taught by the sinking of H.M.S. Victoria. An exact model of the sunken vessel is, it is said, being constructed in Cronstadt, and this, together with the information available as to the causes of the accident, will serve as an object lesson to Russian naval architects as to what shall be avoided in designing new vessels.

To the point—the points of the Esterbrook pens, which are smooth and even, producing pleasant and easy writing.

Our Western cavalymen are keeping up their reputation for hard riding. The Third Cavalry travelled in all 18,000 miles last year—chiefly scouting on the Western border, and one troop of the regiment—G troop—covered as high as 85 miles in one day—the longest day's march made in 1893 by any soldiers in the United States Army. Last year's record—78 miles—was achieved by the same smart company, in the Garza campaign in Southern Texas.—*Boston Journal*.

Don't Wait for the Sick Room.

The experience of physicians and the public proves that taking Scott's Emulsion produces an immediate increase in flesh; it is therefore of the highest value in Wasting Diseases and Consumption.

With soft, persuasive prayers woman wields the sceptre of the life which she charmeth; she lulls the discord which roars and glows—teaches the fierce powers which hate each other like fiends to embrace in the bonds of love, and draws together what are ever flying asunder.—*Schiller*.

THE BEST TONIC.

The Egyptian Minister of Public Works proposes that Sir Benjamin Baker, M. DEAR SIR,—Your Burdock Blood Bitters excels all other medicines that I ever used. I took it for biliousness and it has cured me altogether.

An American girl, it seems, is the first woman to take the degree of Doctor of Mathematical Science at the Sorbonne at Paris. Her name is Dorothy Klumpke, and she is described in an English newspaper as a Californian of Dutch descent. Last year a young French woman, Madame Chauvin, took a degree in law at the Sorbonne, and was nearly mobbed by her fellow students when she got it. The young mathematical doctors were kinder to Miss Klumpke, and let her carry off her honors in peace.—*Harper's Weekly*.
