

dom) operations in Italy. For this period, and within the limits defined in paragraph 13, Italy will be treated as a whole. The date of the termination of military responsibility will be fixed by the Allied Nations.

15. In addition to the programme of supplies for which the military assume responsibility for procurement (Category "A") the Allied Commission will assist the Italian Government in the preparation of programmes of supplies designed to rehabilitate Italian Industry. Such programmes, referred to as Category "B", will be handled under procedures already notified. The purchasing of supplies in Category "B" programmes will be undertaken immediately without reference to the present difficult shipping position in order that the supplies so purchased may be called forward as and when shipping space becomes available.

16. The Allies desire that industrial rehabilitation in Italy be carried out by the Italian Government to the fullest extent permitted by Italian resources and such supplies as it may be possible to import under the terms of paragraphs 13, 14 and 15 above, and subject to the limitation in paragraph 19 below. The sole exception to this principle is to be made in the case of industries involving the production or repair of munitions or other implements of war, which will be rehabilitated only to the extent required by the Supreme Allied Commander in the discharge of his military mission, and to the extent necessary to further the Allied military effort in other theatres. The priority order in which Italian industry will be rehabilitated (after the rehabilitation of industries essential for Allied military purposes) will be determined by the Italian Government with the assistance and advice of the Allied Commission.

17. The prime responsibility for the control of inflation in Italy, including the imposition and administration of the appropriate financial controls and economic controls, and appropriate utilisation of supplies, rests with the Italian Government. In this connection, as in others, the Allied Commission stands ready to advise and assist.

18. The extent to which exports are to be stimulated and the development of machinery to handle export trade are for determination by the Italian Government. For the time being, the Italian export programme will necessarily be limited by certain shipping, military, financial and supply factors. The applicability of these factors to individual programmes will be worked out between the Italian Government and the Economic Section of the Allied Commission along the lines already discussed by the Economic Section with the Inter-Ministerial Committee for Reconstruction.

19. Nothing contained in the above should be taken as constituting a commitment by the Allied Nations with respect to shipping. Any supplies to be imported into Italy must be transported within such shipping as may be allocated from time to time by the Allied Nations.
