## 5 Selecting Trading Houses

The relationship between a manufacturing firm and its trading house is a partnership. That is, they embark together on joint ventures which, if properly conducted, should work to the mutual advantage of both partners. The success of such ventures requires that the partners be a good match and that they trust each other.

A proper match will not be made if there is any misunderstanding concerning the respective abilities and expectations of either party. The confidence needed for a beneficial partnership can be established only if both parties give evidence of their seriousness and honesty in doing business.
