

The last stages in the process of a challenge inspection has only been addressed in the consultations in a limited fashion. However there appears to be broad consent

- that a deadline should be set by which the inspection team should conclude the inspection and return to the Headquarters
- that the inspectors' report should be strictly factual and only contain directly relevant information
- that copies of the report should be made available to the requesting State, the requested State and to the Executive Council.

PART III

The process after the inspection

A number of questions have been raised as regards the further process, inter alia

- What would be the role of the Executive Council in the evaluation of the report?
- What would be the role of the requesting and requested State at this stage?
- Which further actions could be considered if a violation of the Convention has been established?
- Which further actions could be considered if it can be established that the rights under Article IX have been abused?
