

I am also pleased that Canada's participation will be maintained in a variety of key positions in the Force. This will allow us to retain both the symbol of dedicated service to peacekeeping that Canada represents and the professional contribution your personnel have made to our unique mission.

I therefore have the honor to propose that the MFO and the Government of Canada agree on the technical amendments to the Terms of Participation set forth in the Annex hereto, and that Canada's ongoing MFO participation after the repatriation of the RWAU continue to be governed by the Terms of Participation subject to and in accordance with these amendments. It is understood that all matters relating to the repatriation of the RWAU and relevant financial arrangements shall be addressed in a separate agreement.

If the above is satisfactory to your Government, I have the further honor to propose that this Note and its Annex, together with your affirmative response, shall constitute an Agreement between your Government and the MFO, effective on 28 March, 1990.

Please accept, Excellency, the renewed assurances of my highest consideration.

Wat T. Cluverius IV  
Director General
