PROVISIONAL OVERSEAS DIRECTORY

The purpose of this directory is to serve as a ready reference for the location and address of departmental offices overseas. It has been prepared by the ICER Secretariat following consultation with the principal user departments and contains a more complete listing of Canadian representation abroad than can be found in publications currently available.

It is proposed to produce the directory in final form after a six-month trial period. With this object in mind addressees are requested to forward any criticisms and comments on its format and utility to the ICER Secretariat.

J. R. Maybee
