# Canada's International Market Access Report - 2009

Canada's International Market Access Report presents market access achievements from last year and the Department's market access plans and priorities for the coming year. It also outlines foreign market access issues by region and country and provides an overview of Canada's bilateral and multilateral trade policy.

Message from the Minister

Introduction

Current Issues

Regional and Bilateral Free Trade Agreements and Other Initiatives

Getting the International Rules Right

Opening Doors to North America
