

O.H. Nelson, Esq.

- 2 -

I hope the people of Prince Rupert are not disappointed in what they expect from the Liberal Government, but if they ever want the Grand Trunk Pacific to pay they must adopt a very active immigration policy. I think many years will elapse before we will get rid of the awful debt under which the country is now labouring, owing to the taking over of the railways. I suppose, Nelson, that you are a Government ownership man, as most of the people in the West are, but I believe we shall curse for many years the day when our Government embarked on the railway building programme.

Please remember me to Cy, and most cordially reciprocating your good wishes, I am,

Ever yours faithfully,
