English-speaking population ..... 107,050,000

English bids fair to become the universal language; already it is more widely spread and more freely spoken than any other tongue. In Europe it is regarded as the language of polite society. On the vast Australian and North American continents it is the one tongue; and in the East fully 15,000,000 of Hindus, Mohammedans, Buddhists, and others, read and speak English. In point of number at the present time, it is exceeded by the Chinese alone. — *Whitaker's Almanac*.
