

TESTIMONIALS

HUNDREDS of letters have been received by the Author from students and teachers in all parts of Canada and the United States, expressing their great satisfaction with the Analytical Method, in words more or less like these below :

From MR. GEO. W. MERSEREAU, M.A., Inspector of Public Schools for New Brunswick.

Referring to his son, on whom he tested the method, Mr. Mersereau says:

"When I began my questions, he seemed to have the vocabulary at his fingers' ends, as well as the ability to throw the words into their proper construction, and when I asked him to parse, he was never at a loss for the case and number of a noun or adjective. Finally, I gave him the first book of Caesar, and was astonished to find that he could read it with very little help. I consider the method, so far as I have seen its merits illustrated, to be a means whereby a large number of people may acquire a knowledge of Latin—I mean people who are so circumstanced that they cannot attend a school or college for that purpose—and I can therefore most conscientiously recommend it."

From MR. W. GALLOW, M.D., Toronto.

On closing my Latin course with you I would like to let you know how pleased I have been with it. As you are aware I began on May 2nd and finished on June 5th—thirty-eight days in all, including Sundays, which properly speaking should be left out. My success has exceeded my greatest expectations and I would advise all persons desirous of learning Latin to take your course, as it certainly fulfills all you claim for it.

From MR. R. COWLING, Principal, Woodbridge, Ont., P.S.

"I have taken the full course of Lessons according to the De Brisay Method, and find it very satisfactory. It will do all that is claimed for it, if the directions are followed. I have tried other methods, but believe this to be the correct method of mastering Latin."
