The air ministry has received a report from Commander Scott that at 20.15, Greenwich mean time (4.15 p.m. New York time) the dirigible R34 was flying westward at 30 knots, 2,000 feet above the sea. At this height the R34 was above the clouds, and enjoy-ing brilliant sunshine. Commander Scott expects to arrive Friday morn-

nfternoon.

No attempt would be made to land, he said, until about 6 o'clock in the evening because too much hydrogen gas would be wasted in making a landing during the hot hours of the day. There is a rare possibility, however, that with favorable winds the giant craft will reach here Friday morning and land immediately when she is 600 miles from the coast. Railway Board Demands Instant Return---Mayor Calls on Board to Order Immediate Forfeiture of Franchise---Men Acclaim Conciliators' Tentative Award.

It was another blank day so far as a settlement of the street car strike is concerned, and matters do not seem to be any farther forward as regards the re-establishment of a service to the enduring public. Commissioner R. C. Harris, manager of the street railway for the Ontario Railway Board, repeated his wage offer, similar to that made last Friday, but the men at their mass meeting in the Star Theatre unanimously rejected it.

Mayor Church last night wrote D. M.
