THE SCHOOL QUESTION AGAIN.

The Pope's encyclical places the Manitoba school question on a new footing.

When this question was submitted to the people, as it was in the general election of 1896, it had not been adjudicated upon by the highest authority in the Roman Catholic church, and Roman Catholic electors felt themselves at liberty to vote on the question according to their own dictates. Now, however, the court from which Catholics are so apt to claim authority in matters of faith and morals, has declared that the school question must be reopened and another effort made to secure separate schools for Manitoba. That the church will embrace the first opportunity to regain its prestige and to retrieve the ground it has lost there is little doubt. This is probably the first time since Confederation that the Roman Catholic hierarchy of Quebec has suffered defeat in any important political project which the church undertakes to put through. At any rate, the defeat of the project for the reintegration of separate schools in Manitoba was the greatest political shock the hierarchy ever received. In the upheaval of 1896 the church perceives that the prestige and authority of centuries has all but ended its grasp. The church will not clude its grasp. The church will not clude its grasp. The church will not clude its grasp.

The Rush to the Klondike.

Many People Coming from Australia—Constructing a Steamer.

San Francisco, Cal., Dec. 25.—Travel from Australia to the Klondike will be very heavy next year. All the available space on the Mariposa, which leaves here in March, has been engaged. In the case of the Moana, the bulk of the passengers will come from New Zealand. The prospect is to be obtained from the Government for permission to erect berths in some of the steamships. The Klondike River trade, which has been so successful, is expected to be carried on this steamer.

A Few Lines of Importance to Commercial Travelers.
