kelly to carry out their said con-spiracy' were:

No Checking Up.

"Firstly, an atmosphere of laxity was to be created by the Hon. Robert Rogers in his department of public works, and such instructions were to be given to Victor W. Horwood, the acting provincial architect, as would insure acquiescence by him and by the insure acquiescence by him and by the various Government inspectors, and the of the recent break in prices. Set-officials of the department, including the architect's office, in the estimates of contractors without checking up or verifying the propriety of such estimates, as high as 750,000,000 bushels as high as 750,000,000 bushels

"Secondly, contracts for 'extras' were to be lavishly granted to main contractors, subject to no competition by others.
"Thirdly, as soon as the various con-

"Thirdly, as soon as the various contractors realized the favorable treatment they were receiving emissaries from the Conservative committee or other organization were to wait upon them and collect correspondingly favorable contributions to the Conservative campaign fund."

The commission proceeds:

Names the Principals.

"I find that during the period in 1911, when the Hon. Robert Rogers was minister of public works, the following persons became principals in the conspiracy aforesaid:

ister of public works, the following persons became principals in the conspiracy aforesaid:

"The Hon. Robert Rogers, Thomas Kelly and his sons in the firm, Roy Worthington (estimator for Thomas Kelly & Sons), and Victor W. Horwood,' and that the agents employed by them to assist in carrying out this conspiracy were the various Government inspectors in charge of the works, the various deputies in the department of public works, including the architect's office and D. E. Sprague, collector for the campaign fund."

The commissioner finds "that during the year 1911 the requisite atmosphere of laxity was created among the Government inspectors and the officials of the department of public works, and among the various contractors." He finds that "after the Hon. Robert Rogers was transferred to Ottawa, in or about October, 1911, the objects of the conspiracy and the means for carrying them out were continued under the regime of his successors." and adds that "it is almost impossible to believe that they were not aware of the frauds which were being committed."

After Rogers Left.

Commissioner Galt reports that more than half the cost of the building was paid after Mr. Rogers left the Manitoba Government, and that "during this second period" Dr. R. M. Simpson was "treasurer of the Conservative Association, and he collected funds for the party." The commissioner says he is satisfied that Dr. Simpson "was well aware of the conspiracy in question and

mand he collected funds for the satisfied that Dr. Simpson "was well aware of the conspiracy in question and became a principal to it." Charles Gorie, he finds, also collected money, but his activities were "rather those of an agent than a principal."

"During the second period," continues the report, "the Hon. C. M. Campbell and the Hon. W. H. Montague were ministers of public works. Both of them are now dead, and some of their colleagues are awaiting trial at the next assizes for charges arising out of the contracts for the new parliamentary buildings, which were awarded in the year 1913. I therefore consider it inadion that the make any direct findings as ters of the province in the said conspiracy during this period."

PLOUGHING MORE OF PAPI

PLOUGHING MORE OF PARK.

INGERSOLL, May 25.—A section at the east side of Victoria Park is being ploughed up to afford space for those who are desirous of assisting in the greater production campaign. There have been a number of requests for plots of ground at the park. The section that is being ploughed will in no way detract from the appearance of the playgrounds or limit the opportunities of those who wish to gather at the park. It is a large section that is seldom put to any use, and as it is almost virgin soil it is believed will be very productive.

TRIED TO ENLIST SEVEN TIMES.

EXETER, May 25.—William Ennington went to London this week to enlist. He was successful in signing on
with the 7th Fusiliers. Mr. Ennington
has tried to enlist seven times before
and had been each time rejected.

Born in England, he returned to his
native country after being rejected in
Canada. He paid his way over and
tried to enlist in one of the English
battalions, but was turned down as
medically unfit. Last summer he returned again to Canada and re-engaged
with his old employer, Alfred Walters,
shoemaker of this town. London, May 26.—Calcutta May and June, £30; linseed oil. Sperm Oil—£54. Petroleum—American refined, spirits. 1s 3d. Turpentine Spirits—54s. Rosin—American strained, 32s G, 32s 9d. BIG CASH BREAK OF

In attendance and the amount of produce offered today's market almost made up for the exceptionalys small ones throughout the week. Vegetable prices were firm, however, as the demand was fully equal to the supply. Potatoes were inclined to be firmer, as the city supply has given out. The majority of them sold for \$4 and \$4.50 a bag. Seed potatoes brought from 23.50 to \$4.50. Spinach was firm at 30c a peck, and asparagus sold for 7c to 9c. Cabbages sold for 16c to 30c each, and green onions for 35c to 40c a dozen bunches. Parsley sold for 40c, and new carrots for 10c a quart. Lettuce brought 5c to 7c a head, and radishes than usual, pound dairy rolls retailing for 44c a pound, and crocks for 42c. Treamery butter retailed for 47c apound, while wholesale lots brought 44c. Dairy butter, pound rolls, whole-sale, brought 42c, and crocks 40c. Store lots sold for 39c a pound. Single dozens of eggs brought 44c and 45c. Crate 10 tots sold for 41c, and basket lots for 42c. Chickens were almost the only poultry offering. They brought \$2 to \$3 a pair.

Chickens were almost the only poultry offering. They brought \$2 to \$3 a cwt., but wheat remained unchanged at \$2.50 a bushel. Hay maintained its advance, selling in most cases for \$14.50. Dressed hogs were unchanged, and live stock prices were steady.

Grain, Per Cwt.

WEEKLY REVIEW.

[Reported by Thomson & McKinnon.] Minneapolis, May 26.—Wheat—Close— July, \$2 84; September, \$2 22½.

KANSAS CITY GRAIN MARKET.

Reported by Thomson & McKinnon Kansas City, May 26.—Wheat—Close July, \$2 75; September, \$2 15½.

WEEKLY REVIEW.

New York, May 26.—The most significant feature of this week's active stock market, in which daily dealings ran from 1,000,000 to 1,700,000 shares, was the widespread evidence of a reawakening of public interest. This was most important in the demand for industrial issues, United States Steel making the new maximum of 134.

With the advance of quoted values came a corresponding reduction of the short interest. That element, composed of a group of professional traders, had stubbornly opposed the rise, but probably caused a considerable part of its commitments.

The rise was naturally attended by very extensive profit-taking, which exercised a little deterrent effect except in stocks of the more speculative character. Ralls were among the very few issues that failed to participate to an appreciable degree in the advance. The restraint shown by this group lacked explanation, other than probable disappointment at the delay of action by the Interstate Commerce Commission. Sentiment was heartened by the more hopeful view regarding the Government's policy of taxation.

Another and more important factor was presented by the country-wide interest evinced in the "liberty loan." Crop conditions also gave promise of general improvement, and money continued easy despite a pronounced increase from various quarters.

That industrial confettions have best

Veals—Receipts, 500 heat, \$15014 25. Hogs—Receipts, 3,700; slow; pigs steady, others 20025c lower; heavy, \$16 500 16 60; mixed, \$16 40016 50; yorkers, \$16 25016 40; light yorkers, \$15016; pigs, \$14 50014 75; roughs, \$14 40014 60; staxs, \$12013 50. Sheep and Lambs—Receipts, 800; active and steady; prices unchanged. PROVISIONS.

ribs, 141s; clear bellies, 140s; long clear middles, light, 140s; do, heavy, 139s; short clear backs, 135s; shoulders, square, 123s.

**Lard—Prime western, in tierces, 124s; American refined, in pails, 127s 3d; do, hoves, 126s. WALL STREET.

New York, May 26.—Trading during today's short session was attended by further activity, and a fair average of higher prices in all stocks except rails. United States Steel more than maintained its record of recent days, advancing 1¼ points to the new maximum of 134%, from which it reacted almost a point. Other shares of the same class rose 2 to 4 points, with prominent equipments and munitions. The motors were higher by 2 to over 5 points, and Texas Company rose 5. Coppers added to the advances of the past few days. Specialties were represented by Industrial Alcohol, Corn Products and South Porto Rico Sugar, the latter rising 23 points to 200. Prices eased for the most part toward the end, renewed weakness of roubles inducing moderate selling. The closing was strong. Sales were estimated at Cills.

Liverpool, May 26.—Tallow—Austraian (in London), 628 3d.

Turpentine Spirits—548 6d.
Rosin—Common, 308 6d.
Petroleums—Refined, 1s 24 d.
Linseed Oil—55s.
Cottonseed Oil—668 6d.

New York, May 26—Wall Street, 10:30 a.m.—United States Steel duplicated its new maximum of 134 in today's early dealings, and other specialties in the war division were firm to strong with coppers. Rails were inactive and little changed

war division were firm to strong with coppers. Rails were inactive and little changed.

10:30 a.m.—Business at the beginning of the week-end session was less active because of the absence of many traders. The market yielded little of its recent gains, however, United States Steel again claiming leadership at the new maximum of 134%, an over-night gain of %. Independent steels and the prominent equipments and coppers also advanced from fractions to over a point, equal gains being registered by shippings. Texas Company advanced 3 points, and General Motors 2%. Rails moved within narrow limits on very small dealings. Specialties were featured by Corn Products, which rose a point.

London, May 26.—The stock and Battic exchanges here, and the cotton exchange in Liverpool are closed today. All exchanges in both cities will be closed on Monday.

London, May 26.—Bar silver, 37%d Money, 3½@4 per cent.

"NO FLOTATIONS."

Yesterday and To-day

Wooden shingles of twenty or thirty years ago were of splendid quality, and answered the purpose very well. There was nothing better at that time. In fact no other roofing material was on the market. Yet who would think of putting on shingles to-day? When the deterioration of wooden shingles became noticeable, efforts were made to invent a roofing that would not only be an economical and permanent substitute for wooden shingles, but one that would outlast them in service.

Brantford Roofing was the result. It has "made good." secret of its success is this: First, the base is of pure, long-fibred felt which is thoroughly saturated with asphalt or mineral pitch. The asphalt and crystal roll roofings are then thickly coated with crushed rock particles, which adhere tightly to that base, and the whole forms a permanent fireproof, water-tight roof.

Brantford Asphalt and Rubber Roofing are made in three different weights. Crystal is made in heavy weight only, in red or green natural colors. All three grades are pliable and well suited to either flat or steep roofs.

Brantford Roofing

comes in rolls with protected ends. The layers do not stick together and the roofing is easily laid. It requires no painting or tarring when put on. It does not crack with the cold nor melt with the summer's heat. It does not curl, split, rust or blow off. It gives permanent weather and fire protection at a reasonably low initial cost.

May we send you our roofing book and samples? They will show you the real value of these roofing materials.
