MONTREAL INTERESTS
WHAT TORONTO MARKET
 Cobalt Securities Are Generally Buoyant With a Much More Active Demand.

World Office, Monday Evening, April 27. The shipments from the Cobalt camp last week were again in good sized values, and the shippers were aided by the addition of Crown Reserve, which sent out its first car. The market for the mining securities showed the effect of the increased enquiry to-day's business, the exchanges being busier than they have been for a long time. The principal buying occurred in Green-Meahan, Silver Queen, Trefhewey and Crown Reserve, each of which made further advances. Foster was more active than it has been for several weeks, and an early advance in the price of the shares is predicted by those close to the market. Brokers on the New York curb are reported to be still heavily short of all the active stocks and are using every means to direct speculation and investment at that point. A good deal of to-day's purchases were again made in Montreal houses, the securities being impossible to obtain on the eastern exchange. The market is offering at around-to-day's high prices.

Prospectors Object to Charge.
 Prospector and claim owners in Montreal River district are indignant because they are forced to pay \$2.50 for a claim, and think that they should be entitled to the 50 per cent rate the same as farmers. They further believe that the recorder's office at Latchford should be moved to Elk Lake. The thirty days' work on claims as required by law is too much, say the prospectors, and a charge should be taken off in the instance of a claim far from habitation.

White Mine Has 24 Veins.
 The White Mine at Maple Mountain began operations last week under the direction of Manager R. W. Trefhewey. The mine came in and commenced prospecting work. The most notable fact of this property is the 24 veins running on both sides of the ridge and connected with each other. Native silver has been taken from nearly every one, and the showings warrant the big price paid for the property, which makes the White boys practically independent for life.
