This will be reduced somewhat by collections still to be made, but as a considerable percentage of the book debts are a doubtful asset, which sooner or later, will have to be written off, it is thought that eventually the department will be shown to have cost the association about \$1600. Another step forward toward the solution of the caring for of the many, many poor and needy sick in Toronto during the winter season was made northern boats have been bringing yesterday, when at an enthusiastic meeting in St. Michael's chapel presided over by Archbishop McEvay, the nucleus of another ladies' hospital board was formed, and a committee of prominent ladies struck off to draft a constitution, which will be present-ed for the approval of the next gath-

Its field will be the whole city, and its object the nursing at home of the very poor who cannot leave their homes for a hospital or who are too poor to pay for the necessary medi-cines. The work will be along the lines taken up by the Toronto Nursing at Home Mission on Hayter-street. In an address of half an hour's dur-ation his grace made a touching ap-peal for the indigent poor of the city, who are always the principal sufferers during the winter season. He pointed out the numberless cases where moth-ers of large families were stricken; the husband and bread winner unable to remain at home to care for the the husband and bread winner unable to remain at home to care for the children in order that there be al-ways enough food in the house, while he could not afford the luxury of having a nurse in the house. Others again were too poor to provide proper nourishment for their sick ones, and too proud to appeal for help. It be-comes necessary therefore to save these people from themselves—and the neeting settled down to do its share. It did not take long to set aside the fcllowing ladies as a committee to draw up the constitution: Lady Fal-conbridge, Mrs. Kavanagh, Mrs. French, Mrs. O'Sullivan, Mrs. Hugh Kelly, Mrs Dwyer, and Miss Hynes.
