Mr. Speaker: Shall the remaining questions be allowed to stand?

Some hon. Members: Agreed.

GOVERNMENT ORDERS

[English]

BUSINESS OF SUPPLY**ALLOTTED DAY S.O. 58—BERGER REPORT ON NORTHERN PIPELINE**

Mr. Edward Broadbent (Oshawa-Whitby) moved:

That this House urges the government to accept the principal recommendation of the Berger report that no pipeline be built in the Mackenzie Valley for at least ten years.

Mr. Speaker: I would note that, by agreement, not later than 3.45 o'clock p.m., every question necessary to dispose of these proceedings shall be put forthwith pursuant to Standing Order 58(9)(a).

Mr. Edward Broadbent (Oshawa-Whitby): It is rare in politics that a nation is given the opportunity to make an historic decision that can be both practical and decent, that can be at once just and prudent. We in Canada are now on the threshold of such a decision. On Monday, when Mr. Justice Berger handed down his historic report, Canadians were given more than an unprecedented and comprehensive assessment of a proposal for a major project. We were given a unique opportunity to change the way in which we treat our last frontier. We were advised by Mr. Justice Berger that the native people of Canada at long last deserve more than verbal respect. We were told they deserve the chance to develop in the north a pattern of growth of their own making, to have a crucial say in the shaping of their own future.

We were also advised by Mr. Justice Berger that some values and some areas of unique wilderness in our magnificent country must be preserved for all time. All of us have heard these things before, but Mr. Justice Berger has asked us as a people to listen and to listen with care. And he asks us to remember the past before we jump mindlessly into the future. The Inuit, the Dene, the Métis and our grandchildren throughout Canada are watching us today in this important debate.

Powerful interests, however, are already at work to undermine Mr. Justice Berger's plea to the Canadian people. We are told that his sentiments are all very well, but if we do not get the gas now from the north, mothers and children in Toronto, Halifax, Vancouver, all the cities of the south, will freeze in the dark. We are told that putting off the pipeline decision delivers a generation of northern natives to the welfare lines and beer halls. This is the new propaganda which must be countered in Canada, and countered immediately.
