11. April 26, 1869.—On some Rare Exotic Birds recently added to the Collection. By J. F. Whiteaves.
12. " " On Disinfectants. By Dr. J. Baker Edwards.

During the summer recess, the Society held a second field meeting at St. Ann's. Owing to unsettled weather, the party was a comparatively small one, but those who ventured were well repaid.

The excursionists were, by courtesy of the Grand Trunk authorities, conveyed by special train, which stopped first at Pointe Claire, allowing an interval, during which the party walked to the Quarries, and listened to an interesting address from Principal Dawson on the Geological features there exposed. Many fossils were obtained and the rocks closely examined.

The train then proceeded to St. Ann's, where the company separated into groups; the first, to collect fossils, under the guidance of Dr. Dawson; the second, to Fort La Berre, on the property of the Hon. J. Abbott, who gave a brief history of the old fort, and kindly entertained the party, which was conducted by Dr. Girdwood and Mr. Ritchie; and lastly, a botanical and microscopical party, in charge of Messrs. Whiteaves, McCord, and Edwards, who crossed over the river to Isle Perrot, where a large number of specimens in flower were obtained. After the return to the station, the prizes were announced as follows:
