Industrial Outlook in England Looks Blacker, London Reports.

SACRIFICE PROFITS

Differences Between Various Unions Have Been Intensified Recently.

BY HARRY N. MOORE

(British United Press.) London, Feb. 5.-The industrial outlook grows blacker. The ners' leaders maintain that

miners' leaders maintain that the proposed bill has been favorably received and that many members outside the Labor party will undoubtedly support

Differences Intensified.

(By Canadian Press.)

London, Feb. 5.—Differences between the various railway unions have intensified since the engine drivers' and firemen's strike was settled. C. T. Cramp, who succeeded J. H. Thomas as the political secretary of the National Union of Railwaymen, in a speech on Saturday, said he was willing to consider a scheme for getting all railwaymen into one union.

Secretary Bromley of the Society of Locomotive Engineers and Firemen, when interviewed regarding Mr. Cramp's speech, said:—

"I have no doubt Cramp would welcome me at Unity House, but the opinions of 70,000 members of my organization must be considered. If they welcomed the invitation, which I don't suppose they would, they would have to find another representative, for I could never associate with leaders who black-legged other trade unionists in a fight with capital." (By Canadian Press.)

## CANADIAN GOES IN SEARCH OF FOSSIL

Manitoba University Man Seeks Giganticaurus Africanus, 80,00,000 Years Old.

New York, Feb. 5 .- On the steam ship Cameronia yesterday sailed W. F. Cutter of the University of Manitoba, Winnipeg, who goes to East Africa in search of fossil known to scientists as search of fossil known to scientists as the Gigantisaurus Africanus. The spe-cimen is said to be at least eight mil-lion years old. The scientist will take with him into the jungle more than 100 native carriers. The heat in the section of the fossil bed ranges from 130 to 140 degrees.

Away All Winter, Cattle Came Back

Hepworth, Ont., Feb. 5—Ten head of cattle owned by George Bartman, and three head owned by W.T. Golden, farmers of St. Edmund's Township, be-

farmers of St. Edmund's Township, became so wild that they could not be chased out of the swamps on the Bruce Peninsula when winter set in.

The owners thought the cattle had died from cold and starvation, but were surprised yesterday when all but one of the animals walked into their owner's barn ready to be admitted to winter quartors.

### 3 Escaped Convicts Killed by Guards

Jefferson City, Mo., Feb. 5-Death rom the guns of a posse of priso juards last night ended the lives of three convicts who yesterday es-caped from the Missouri prison, aster killing James Hart, a guard. In the midst of one of the winter's flercest blizzards they made their last stand in a straw stack on a farm about five miles southeast of here. After firing the three remain-ing shots in their revolvers at the guards, who were surrounding them they fell ridgled with bullets from a dozen or more guns. They died

trial outlook grows blacker. The miners' leaders maintain that they are doing all they can to prevent a strike following the ballot which was taken, by which the men voted not to accept the agreement of the national wages board.

I understand that should the negotiations now pending between the miners and their leaders break down the Liberals will immediately press upon the government the advisability of bringing in a bill amending the minimum wage act of 1912 and incorporating in the new measure the principle of a living wage.

The present wages paid to the miners are twenty per cent. above the standard prevailing in 1914, but are lower than the minimum garanteed wages promised after the war which are to be based on the proceeding find the miners and start the miners and the miners and the miners and the wash to the miners and wash to the miners and the wash to the wash to the miners are twenty per cent. Them Handle Big Problems of Canada.

Montreal, Feb. 5.—The establishment of a senior branch in the civil service of Canada, admission to which would be open only to men qualified in a very special manner, was urged by Sir Arthur Currie before the McGill Medical Society here last night.

He said such a branch would constitute a political staff in the highest sense of the phrase. Successful conduct of government would thus be insured, a consummation not to be otherwise expected.

Problems that would be handled would, he said, be those that were among the most pressing needs of Canada at present, namely, immigration, development of natural resources and the meeting of the Dominion's deficits.

KIDDIE OF TWO IS BURNED TO DEATH

BY HARRY N. MOORE.

(British United Press.)

London, Feb. 5.—It does not seem likely that complete harmony will be restored in the Conservative ranks as a presult of the meeting of the meeting of the meeting of the meeting of the party believe that a change of leadership at this time would be an admission of absolute defeat and that a possible result of such action would be a loss of confidence in the party throughout the country.

The revolt against Mr. Baldwin is centered in the Lancashire towns, and great interest attaches to the meeting of the country association of Lancashire towns, and some hard things will be said. Lord Derby, who has great influence throughout the country, is sure to do his utmost both on Saturday and Monday to preserve harmony.

Widow of the Ex-President Rules That Funeral be Private.

BURIAL TOMORROW

That Remains be Taken to Native Soil.

By Canadian Press. Washington, Feb. 5-A fringe of folk on the street before the Wilson home, waiting to see the great ones who came New York, Feb. 5-Babe Ruth's and went, and the guardian police who contract with the New York Yankees turned unnecessary traffic from the steep, narrow street, alone marked

ment.

There was demand on many sides today that a last moment change should be made and more elaborate ceremonies mark the funeral. There were many like Senator Swansen of Virginia who believed that this dead son of Virginia, mother of presidents, should go back to sleep in Virginia soil forever. It was this feeling that prompted a suggestion that entombment should be in the memorial amphitheatre at Arlington where its the monument to the unknown soldier.

Mrs. Wilson had her way, however, and the marble vault under the great church that looks down on the house where he died will hold her husband's honored casket until the form and manner of his final resting place can be

## New Hotel Work Here Means **Hustling Spring and Summer**

few weeks the south side of King Square will assume the same brand of ed for the theatre nearby. In the case of the Admiral Beatty Hotel, the boom in the labor market is expected. As tenders have not yet been asked —though plans and specifications are about ready—there is as yet no general contractor for the big job. Local builders expect the work may be considerably split up.
WILL BE BUSY PLACE.

WILL BE BUSY PLACE.

In any case this spring and summer on the old Dufferin location will be intensively busy. To put the hotel eight stories high, dig its spatious cellars, outfit its rooms, decorate, create its art special work, instal furnshing, place its culinary equipment, laundry plant, electric outfit and make ready for a celebrating dinner on New Year's, 1925, will doubtless make St. John workers hustle as never before. The imperial Theatre job was unfortunately delayed by an obstinate water difficulty—being on the site of an old tannery—but no such obstacle seems to stand in the way of the Admiral Beatty.

Royal) the Admiral Beatty will perhaps be the company's most important ocean terminal hotel in addition to its place in the traveling life of landsfolk.

New York Reports Worst Storm in Years in Vicinity of Milwaukee.

(By Canadian Press.) New York, Feb. 5-Weather that today ran the gamut from mild temperatures in sections of Lower Michigan to drifted snows farther north and sleeted streets, wires and rails, brought a to of at least three dead, damage that is roughly estimated at upward of a million dollars and demolished traffic and commu-

nication in many places. Telegraph and telephone companies report that the havoc to their wires centred in an area of about forty miles around Chicago but the octopus arms of the storm extended in every direction from that centre. The worst storm in years, according to reports, damaged telephone and transportation lines in the vicinity of Milwaukee to the extent of one million dollars. Several trains in the state were reported stalled in snowdrifts. Banks of snow in some parts of Wisconsin were said to be ten

Another radius of the storm extend-Another radius of the storm extended south and southwest from Chicago, through Illinois, Missouri and as far south as Texas. A tornado accompanied by rain and hail caused damage placed at \$100,000 at Haubstadt, Ind. The storm reached gale proportions in Missouri, sweeping upon the state from the northwest, with an attendant drop in temperature and increased wind velocity. The rain turned to sleet and ice as it fell, burdening wires and poles that snapped under the weight London, Feb. 5—(Canadian Press)—
The astounding skill of the Canadian hockey team at the Olympic may rank as the most distinct feature of all the games thereat, declares the Chamonix correspondent of the Morning Post in a review of the Olympic games.
