TO CARE FOR THE FISH AND GAME IN HYDRO AREA

The proposal to form an independent fish and game protective association for the region of the new Musquash hydroelectric development, in view of the anticipated great influx of hunters and fishermen into this territory, will be submitted to the interested public in order to ascertain opinion regarding the formation of such an association. This decision was made at a meeting of the executive of the New Brunswick Tourist and Resources Association in their offices yesterday afternoon. If it is found that public opinion favors the formation of such an aprotective organization the Tourist and Resources Association will call a public meeting at which the proposed organization will be formed.

The opening up of the hydro and the possible prohibition of fishing and hunting along the watershed of Loch Lomond, the source of the city's water supply, the source of the city's water supply, the source was felt that unless some protective and restrictive measures were taken important to the control of the city's water supply, the source of the city's water supply in the control of the city's water supply in the city of the c

It was felt that unless some protective and restrictive measures were taken im mediately the area was likely to be greatly damaged by fire and its plentiful resources of game and fish largely depleted.

It would be within the province of the proposed organization to lay out roads, build camps and assign territory to guides so that good fishing and hunting would be available to sportsmen within an hour or less of the city of St. John. Because of the nature of their organization, the executive of the N. B. T. and R. Association felt that they were the logical people to bring this matter before the public.

The new provincial booklet descriptive of the tourist and industrial resources of of the tourist and industrial resources of New Brunswick is already in process of preparation. C. C. Avard, of Sackville, Westmorland vice-president of the association, is compiling the material and assembling the illustrations for the booklet and he will submit his material to the let and he will submit his material to the committee in charge of the publication of it soon, so that the booklet may be ready for distribution in good time.

N. R. DesBrisay, president of the association, was in the chair at yesterday's meeting which was also attended by C. B. Allan, secretary; C. C. Avard, A. L. Gibbs and L. B. Knight.

Barry Brown, an employe of the Provincial Hospital who was engaged in the erection of a dwelling on Fairylle Platean on Saturday afternoon, fell from a staging and sustained a fracture of the left arm and bruises on his left leg. He also suffered shock. He was treated at the General Hospital, and was reporte last night to be getting along satisfac General Hospital, and was reported

Mrs. Elizabeth Maher, 17, Golding street, was painfully injured yesterday morning. She was walking along Waterloo street and passing the Cathedral she slipped and fell.
