GREEKS AND ST. CROIX WIN THEIR GAMES

Charles and Pinkerton Shine In Victory Over the Fredericton Team—Local Man Had Eleven Strike Outs

Table with columns: Won, Lost, P.C. for various teams like Marathons, St. Croix, Fredericton, Bangor.

The pitching of Charles and the fine field work and batting of Pinkerton were outstanding features of a very interesting game on the Marathons' grounds when the Greeks defeated Fredericton 6 to 3. They also added nicely to their lead in the league race and now are 72 points ahead of St. Croix and 76 ahead of Fredericton.

The Greeks' fielding was also good. O'Brien was back in the game for the first time after his injury and played very snappy ball. Waterhouse got in a couple of nice throws and Pinkerton was responsible for six outs.

Fredericton gets credit for the following in the box score: AB R H PO A E

LARRY CHENEY, THE PREMIER BOX MAN FOR CUBS

Larry Cheney, premier pitcher for the Chicago Cubs, received the "tip" responsible for his major league success while a recruit with the Chicago White Sox on the spring training trip to Mexico in 1907.

That tip was advice from Catcher Eddie McFarland to practice the spittal delivery which Ed Walsh was using with such great success. Cheney tried it, and kept trying it while he advanced to a position where he used it in the city series against the very club whose members had given him the valuable advice.

But on that trip to Mexico Cheney possessed only a fast ball. He never boasted a great curve, and what curve he had he could not "find" when he appeared in practice before Fielder Jones, White Sox manager. So Cheney was sent back by the White Sox to Bartlesville, Okla., where he came.

Secured from Louisville by the Cubs in the fall of 1911, he pitched and won his first game against Brooklyn 3 to 0. In the eighth inning a liner from Wheat's left broke a finger on his pitching hand.

Despite the mishap, Manager Frank Chance thought he detected signs of pitching greatness in his recruit. Cheney's judgment was justified last year, when Cheney became the leading pitcher of the Cub staff. His willingness to work in and out of turn has earned him the nickname of "Big Moose," borrowed from E. Walsh, of the White Sox, from whom he received his first pointer.

Cheney likes to work often, and says he is not at his best unless he is given plenty of slugging. He has had no occasion to complain of not being worked often enough while with the Cubs.

While relying chiefly on his spittal Cheney now mixes them with an occasional curve and a change of pace to fool the batsmen. His height, 6 feet 11.4 inches, makes him the fashionable tall, rangy type so generally sought, while his excellent personal habits insure a long tenure on the mound, barring accident.

Cheney was married in 1907 to Miss Edna Smiley, of Coffeyville, Kans., and has one son, Larry, Jr., who is 10-1/2 months old. His other personal property consists of a ten acre orange and grape fruit ranch at Haines City, Fla., and an interest in an electric fruit company at Cushing, Okla., a city of 4,000 inhabitants. Cheney and four partners own the company. They also have a franchise for a twelve miles interurban railway.

Larry doesn't intend to retire to his business pursuits until his arm loses its cunning, and Cub fans hope that day may be far distant.

Feet So Sore Couldn't Walk Down Stairs—TZ Cured Her Quick

If you have sore feet tired feet, sweaty feet, lame feet, tender feet, smelly feet, corns, calluses or bunions, read what happened to Mrs. Crockett, of Jeffersonville. TZ did it. Mrs. Crockett says: "After the second treatment she walked downstairs one foot at a time. She had not been able to walk downstairs before in just five years; except by stepping down on each step with one foot at a time. This is remarkable. She had five more boxes."

POMPEII LIKE MODERN CITY

Ancient Centre of Business and Pleasure Compared With Brighton. In an address on Pompeii, E. J. Sewell said as one stood in the streets of the town and saw the ruins in the stone pavement by passing vehicles, the last of which traveled there 1800 years ago, or spelled out the inscriptions painted on the walls, such as one calling on the citizens to vote for a particular candidate as a candidate at the coming election, one realized with great vividness the busy and varied life that once thrived in these streets, now empty and deserted. When one found in a winnowing a notice that goods could be had only on cash payment, or on examining some ivory dice found in a house, discovered that they were loaded so as to always throw double sixes, it was brought home to one that human nature in many of its manifestations was exactly the same in A. D. 70 as it is today.

CALGARY'S REVENUE AND THE SINGLE TAX

Calgary, Alta., Aug. 7.—That land values in the city of Calgary have advanced more than \$18,000,000 since the last assessment in 1912 is the report just made to the city council by Richard Wallace. Aside from the increase in real and property values a perusal of the figures strikes the observer with the fact that Calgary's revenue is now pretty close to a single tax basis.

THE PINK LADY

"The Pink Lady," the international musical comedy success which is announced to appear at the Opera House Aug. 11 and week, is most joyous in its composition, a happy riot of melody, adapted to the scenes of light love-making and exuberant frivolity pulsating with life, but always characterized by a power to bewitch the senses, and woo us away from every day cares. It is seldom indeed that the plot of a musical comedy or a comic opera contains such a cleverly devised series of incidents, so well suited to the purposes of comedy and so deftly worked out as they are in the three acts. All are irresistible.

The Easiest Way To Banish Hairs

(Aids to Beauty). A very simple method has been discovered whereby hairy growths can be removed from the face, neck or arms without pain or trouble. A paste is made with a little powdered delatone and water and applied to the hairs now wanted, and after 2 or 3 minutes it is removed, when every trace of hair will have vanished. No harm results from this treatment and when the skin is washed to free it from the remaining delatone, it will be firm and spotless. Stubbly eyelashes will grow long and have a beautiful curl if pyroxin be applied at lash-roots with thumb and forefinger, and this eyebrow come in thick and glossy, by rubbing pyroxin occasionally. Use care not to get pyroxin where no hair is wanted.
