MUTINY AND PIRACY.

Renwick, Miss Cohen,

Advices from Manila tell of trouble aboard the little steamer Dos Hermanos, which was sent out on a cruise among some of the southern islands by a trading firm. The steamer reached Virac and anchored in the harbor there. Officers and the few passengers on board were at dinner in the cabin when about In their monthly freight and shipping thirty of the crew, led by the boatswain, eport for September, R. P. Rithet & rushed down the gangway armed with co. say: "Grain freights during the knives hatchets and clubs, and demandmonth have shown a continued weakening tendency, for although 22s. 6d, was obtained for spot charter at the beginning of the month, it is doubtful if over 20s. The captain and men passengers gave but also teachers, many of whom have

> succeeded in boarding her after a desperste struggle with the mutineers, several of whom were shot and killed. The others, numbering thirty-four, were arrested, charged with mutiny and piracy. It is supposed the plan of the mutin-eers was to kill all the officers, run away with the steamer, take the \$15,000 which was aboard and then wreck the ship and declare all were lost except themselves.

ressurer, Thos. F. Gold; sergeant-atreasurer, Thos. F. Gold; serge passengers and a large number of Chinographic of Luzon, or in latitude 23 north and next Sunday night, and will discuss the ese in the steerage returning from their longitude 125 east, by the United States gunboat Princeton, which took off her ping men believe that the schooner encoasts of China and Japan, and that it was in one of those storms that she met The Otelia Pederson is a schooner of 789 tens, and was owned by Capt. J.

Pederson, of San Francisco. The vessel was built in 1891.

OVERDUE SAFE. Ditton at San Francisco, the last of the yessels on the overdae list was taken off. The ship came from Newcastle, N. S. W., and she was 78 days making the R. Tribune Association. Application S. W., and she was 78 days making the voyage. About a week lago the insurance companies holding risks on her became alarmed at her long time at sea, and reinsurance was offered on her at the plant be sold, by tender. Order made directing sale by tender. Notice of sale to be inserted in the Rossland and 10 per cent. She brought a cargo of Nelson papers for one month. Valuation coal, and it was thought that her coal had become ignited in her hold and that one, Houston, such valuation of plant the vessel had probably met the fate of numerous other vessels that have been of the official liquidator. Moresby and lost at sea by their cargoes of coal taking fire. The crew reported that the ship was delayed by light winds during most of her voyage.

WILL BURN OIL.

The steamer Alameda will after her next trip to Honolulu be laid up while mechanics are fitting her to burn oil for fuel like her sister ship, the Mariposa. posa has been such a success that many of the big steamers sailing out of San Francisco will follow her example. The

END OF SCHOOL YEAR

Time in Which Macdonald-Sloyd Fund Is Available Will Be Up in

The contract between the trustee board and Prof. Robertson, trustee of tha Macdonald-Sloyd fund, expires with the present school year in June, after which the manual training centres here, if Shand, Mrs. Knight, and child, Mrs. continued, must be supported locally. The time in which the fund was available for the maintenance of the school was three years, and this has been sufficient to emphasize the efficiency of this system in every city where it has been established.

This is especially the case in Victoria, where three centres were instituted, two in the Central school and one at North Ward, under the principalship of H. Dunnell. A large number of pupils enrolled themselves in the various classes, and the work throughout has been exceedingly successful. Deep interest has taken up courses, among them clay-modelling, a special class having been dition to the controversy over the government's education bill was, made tonight by Premier Balfour in an address he delivered before a mass meeting in he delivered before a mass meeting in a different property of the part of the continued dullness in business gives little hope of improvement in the near future. We quote the continued of the fight was heard at the barracks and officers put out to the vessel, They the teachers have advanced sufficiently

But it should be remembered that if it is decided to continue the system on the expiration of the contract with Prof. Robertson, expert instructors, such as Mr. Dunnell and his staff, will always be necessary. Practical instruction in the work taken up by the children ever since the school was established here THE PEDERSON ABANDONED.

The American schooner Otelia Peder
trained for the purpose, and whose experience has given them a grasp on every detail of the system.
