SOME TIMELY FIGURES FROM INSPECTOR'S REPORT

In Recent Years Tendency of Canadians Has Been to Patronize Home Companies.

Ottawa, Oct. 28.—The report of the superintendent of insurance for the year ending 31st of December, 1904, contains a great deal that calls for mature reflection at the present time, especially in policy holders. heavy business in Canada, which are now under examination by a committee of the of the tariff is in itself a fairly heavy

In 1879 it appears that of Canadian companies becoming in a change had come about, and that the volved in dangerous speculations for the und of policies in force with United States companies had decreased ten mil- directors may invest their policy holders' lions, whilst those with Canadian companies had increased twelve million, bringing the Canadian companies' out-standing policies almost up to the amount this regard.

of the United States companies.
From that time out the tendency has been for the Canadian business to gradually increase in greater proportion than the United States, until in 1896 out of \$327,800,499 worth of policies in force 042, and the United States held \$97.660. whilst the British companies held \$34,837,448 only.

Canadian and United States companies have been maintained until at the date of the last return out of \$587.880.790 of cies in force, the Canadian companies policies in force, the United held \$364,640,166, against the United States companies \$180,631,886, and the British companies \$42,608,738; but it will be noticed that whilst the

Canadian Companies have increased their business by \$169,000,000 since 1896, the United States companies have increased only \$83,000,-

Thus it will be seen that the tendency has been for insurers to give the prefer ence to their own native compenies and not to the possibly, larger companies of the United States.

Out of the \$180,631,886 policies in force with United States companies the total net liability of the Equitable Life Assurance Company of the United securing great attention at the hands of surers is \$6,781,800.
