Hon. C. A. Dunning
"I am not at all surprised at Hon. T. A. Crerar's resignation after reading the press reports of Sir Thomas White's budget speech" said Hon. C. A. Dunning, provincial treasurer and minister of agriculture.

Dominion Parliament

A. R. McMaster's anticipated amendment to Sir Thomas White's budget proposals materialized in the commons on Monday, June 9th, by a resolution framed in somewhat general terms, declaring the finance minister's proposals to be unsatisfactory and calling for tariff changes, such as would free the food of the people, place implements of the country on the free list and substantially reduce the general tariff and bring into effect the reciprocity agreement with the United States.

Mr. Baldwin, of Stanstead, and Dr. Manion, of Fort William, were the other speakers of the evening, who described the budget as "fairly satisfactory." They thought the government should take steps to stop profiteering and to develop the natural resources.

As for the tariff changes they represented but an attempt to hold divergent interests together by giving them special privileges.

Dr. Beland was inclined to think that in the past the manufacturer has been given the best of it in Canada, and that now the farmer should be given a better show.
