of the Queen, who has been ever a venerated figure with Americans. They see nothing irregular or uncon-ventional in the sending of such com-munications as those now published. The effect of them perhaps has been more direct and beneficial than if they had come through the foreign office or parliament. Their simplicity and sin-cerity are effectual. Nobody sees any reason why two princes destined each reason why two princes destined, each reason why two princes designed, each in his turn, to be sovereign should not declare his good will to a sovereign people. If it be unusual, the circum-stances are unusual, and if their highnesses have used their prerogative to dispense with any countily etiquette, or any punctilito of diplomacy, that only makes their kindly words more wel-come to the people to whom they are addressed.

Speaking of the "subsidence of the war scare" the correspondent says: The number and strength of protests against war have convinced even jingo journals that they have taken the wrong line in threatening hostilities, and that however passionate the at-tachment of this people to the Monroe doctrine they have as yet seen no reason to believe force necessary to vin-dicate it. President Dole of Hawaii Desirous of Joining the United States.

Chicago, Dec. 29 .- In the Times-Herald of tomorrow will be printed an interview with President Sanford B. Dole of Hawaii, had by Miss Kate Field. The talk was held in the presence of Mr. Dole's cabinet, the members of which subscribed to their chief's opinion unreservedly. Mr.Dole said during his remarks: "The government is working for annexation of the United States, although it may deprive us, or some of us, of office. In the higher offices are men to whom it means personal sacrifice and business loss to discharge their duties. We are working in good faith, and I believe the people appreciate the fact. As to the form of annexation that would best meet our requirements, it is difficult to say.
