Seamen's Song Service. The vessels in port were well represented last evening at the song service of the Seamen's Mission Society. A number of citizens were also present. Mrs. C. E. Harding presided at the piano and many good voices were heard among the company. Several Christian workers took part in the meeting. Mr. H. S. Cruikshank donated a beautiful bouquet of flowers.

Petitions in Presbyterian Churches. In the Presbyterian churches throughout the city yesterday petitions were signed by many of the members praying the Dominion Government to make amendments to the laws relating to betting, adultery and social purity. The petitions were drawn up by the Moral and Social Committee of the church on recommendation of the Dominion Synod and will be forwarded to Ottawa.

Y. M. C. A. Week Of Prayer. This week will be observed by all branches of the Young Men's Christian Association as a week of prayer for the spread of Christ's kingdom throughout the world. In the local branch of the association meetings will be held every evening at 9 o'clock. All are invited to attend. No Smoke Without Fire. Some excitement was caused in the North End Saturday evening when smoke was seen issuing from the windows of a tenement in Main street. The people in the house lit a fire in their stove for the first time with the result that they were almost smoked out, the chimney refusing to draw. A needless alarm would have been rung in had it not been for the presence of a couple of Salvage Corps men and a fireman.

St. Luke's 140th Anniversary. The committees in charge of the Hundred and Fortieth Anniversary celebration of St. Luke's church have been successful in securing the attendance of Rt. Rev. C. L. Worrell, Bishop of Nova Scotia, Ven. W. J. Armitage, Archbishop of Halifax and Rt. Rev. J. A. Richardson, Bishop of Fredericton, besides other well known clergymen for the anniversary services which start Sunday. The programme will be issued in a few days.

Fell Over North Wharf. George Comeau, a native of Nova Scotia, had a narrow escape from death Saturday. He fell over North Wharf while the tide was out onto the soft mud. Apart from a rough shaking-up and a slight cut about the head he was otherwise uninjured. He was one of the crew of the schooner Acadian, which sailed Saturday at noon leaving him behind. Sergt. Baxter took him to the police station. Comeau had been drinking and was unable to give his name to the officer when first arrested. Later when he had sobered up he gave his name and his age as twenty-eight. He said he was a native of Nova Scotia. He will be taken before the police magistrate this morning.

Old Building Destroyed by Fire. Fire practically destroyed an old building on the Van Horne estate on Pitt street, last evening between 7 and 8 o'clock. There was no insurance, but the loss will be slight as the building was old and in a dilapidated condition. The origin of the fire is unknown, but it is thought that some boys had been smoking there during the afternoon. The alarm was rung in about 7 o'clock from Box 48 and the fire department was quickly upon the scene. It was then found impossible to save the building. The place was formerly used as a barn and was about 30 years old. Some colored people lived in it some years ago and it was then used as a club room until last year.

PRISONER ESCAPES BY VENTILATOR FROM BRUSSELS ST. LOCKUP

George Evans In For Drunkenness Made Clean Getaway Saturday Evening—Police-man Nelson Gets a Surprise.

On Saturday afternoon about one o'clock George Evans was arrested by Officer Nelson for being drunk on Brussels street, and was taken to Brussels street lockup and placed in a cell. When the officer went for his prisoner at 7 o'clock he found the cell empty and Evans gone. He had evidently made his escape by prying the bars in the ventilator apart and climbing through into the guardroom, from which he escaped through a window. As the windows have no bars on them it would not be difficult. A more surprised man than the policeman when he found that his man had disappeared, would have been hard to find. As he himself says, "You could have knocked me down with a feather."

There has been only one escape from the lockup since it was instituted, and this was a number of years ago when it was located in the Wilson foundry building. Since it has been moved to its present situation there has been no successful breaks for liberty.

Up to a late hour last night nothing had been seen of the fugitive.

REPAIRS TO WEST SIDE FLOATS WILL TAKE TILL TUESDAY

No Teams Crossing Today—Ladies Are Avoiding Descent At No. 5 Berth—Street Cars Doing Great Business.

Ferry patrons are putting up with a great deal of inconvenience just now owing to the West Side floats being taken out for repairs. Since Saturday morning the Western Extension has been landing passengers at the head of No. 5 berth and the regular schedule has not been followed.

On one trip Saturday morning, the ferry steamer bumped into a scow and the passengers were hailed with cries that another damage action would be instituted against the city. It was noticeable that the feminine portion of the travelling public do not look with favor on the steep descent to the landing on the West Side with the consequent detrimental effect upon good clothes and the street cars did a rushing business yesterday.

It is not expected that the floats will be in place before tomorrow morning. In the meantime all team traffic has to be sent around by the Suspension Bridge. Aid. Scott's only comfort is that the present situation is another strong argument in favor of the Navy Island bridge.

WIFE CALLS DOCTOR TO BEACON TO AID LIGHTHOUSE KEEPER

William Gregg Taken Suddenly Ill On Saturday—Dr. Corbet Hailed From Motor Boat Gives Assistance.

Mr. William Gregg, lighthouse keeper at the Beacon, was taken suddenly ill while on duty on Saturday. Fortunately his wife was with him at the time and was able to summon Dr. G. G. Corbet, who happened to be passing in a motor boat, returning from Partridge Island and he rendered the necessary assistance.

Yesterday morning Mr. Gregg was removed from the Beacon to Carleton in the motor boat of the Marine and Fisheries Department, and was taken to his home on St. James street. He is suffering from heart trouble.

Last evening Mr. Gregg was reported to be resting somewhat easier. It is feared that his illness will put an end to his acting as lighthouse keeper at the Beacon.

TOOLS STOLEN FROM BASEMENT OF N. B. TELEPHONE BUILDING

Thieves Broke In Saturday And Removed \$25 Worth—Property Bears Private Mark—Company Is Investigating.

Evidence of the work of sneak thieves was found at the N. B. Telephone Company's building, Prince Wm. street, on Saturday morning, when the repair staff resumed their work. It was found that entrance had been gained to the basement in some unknown manner and the tool boxes rifled. The intruders had evidently been frightened away as there were signs of a hasty flight and many valuable articles were overlooked.

The management state that the value of the goods taken will probably not exceed \$25 and that the annoyance felt at an entrance to the building had been effected was the worst feature of the affair. The tools missing all bore a private mark of the telephone company and can be easily traced. It is stated that the offices of the company were in no danger as the intervening doors were locked.

The police were not notified of the robbing and the company's officials are doing a little detective work in the matter on their own account.

HON. J. P. BURCHILL HERE ON FIRST TRIP SINCE HIS ILLNESS

Arrived In The City On Saturday—Miramichi Lumber Cut Will Be Less Than Last Year.

Many friends of Hon. J. P. Burchill, M. P., who recently passed through a severe illness, were greatly surprised to see him in the city yesterday looking very much like his old self. Accompanied by his wife, Mr. Burchill arrived in the city on Saturday and will remain here for a day or two returning to his home by way of Fredericton. This is his first trip away from home since his recovery from the critical illness which so nearly cost him his life.

Speaking to a Standard reporter last evening, Mr. Burchill said that naturally he was not in close touch with public matters and could not speak of the lumbering situation. From present indications the cut on the Miramichi, the market would fall considerably below that of last year which was estimated at 65,000,000 feet. Laborers were somewhat scarce and wages were higher than usual. The weather too, had a marked effect on securing men for the woods and the crews were late in getting the first lumber on the yards.

With regard to the market next year, Mr. Burchill said that it was only a matter of speculation, but that the operators were hoping for the best.
