THE COLLEGE GIRL WHO

IS CHARGED WITH THEFT. Suffering from Mental Derangement Say Crashed Through Staging and onto Deck of Physicians--Case Attracts Attention.

Northampton, Mass., June 9.—Two prominent physicians have reported that Miss Mabel L. Burt, of Bridgeton, N. J., a former Smith College student who is under arrest on the charge of its staging and thence to the deals of the a former Smith College student who is under arrest on the charge of larceny of money, watches and jewelry to the value of \$2,000 from the rooms of students of Smith College, is suffering from mental derangement and should receive treatment.

The Marrie L. Browster physician at the what of the wharf, could not be stopped at its usual place, and struck the staging, which Dr. Mary J. Brewster, physician at Smith College, visited the girl and reported finding her in such a condition men-tally that she expressed a desire that Dr.

Dr. Hanson expressed the opinion that One of the physicians who saw Miss

A MAGNIFICENT OPAL.

have been sent for.

"The Imperial" Comes from Australia -- Two Inches Long--Will Be Offered to the King.

A magnificent stone, which has come to be known as "the imperial opal," has been privately exhibited at the office of the agent general for Victoria to repre-sentative Australians. The owner has sentative Australians. The owner decided to offer it to his majesty the king as a contribution to the erown regalia in honor of the newly formed commonwealth of Australia.

Saco, Me., June 9—Annie M. Wentworth, aged 36, a highly esteemed mem-

galia in honor of the newly formed commonwealth of Australia.

The stone, which is the property of Maurice Lyons, has been cut into an irregular cushion shape pending the ultimate decision as to the purpose for which it will be utilized. In its present state it is about two inches long and close upon an inch and a half in depth and weighs 250 kersts. It is thus one of the largest on an men and a man in depth and weighs 250 karats. It is thus one of the largest opals, and certainly the finest ever sea.

It displays most brilliantly all the colors of the rambow and combines in a rare stenes. Its brilliance almost approaches that of the diamond; the colors of the ruby, the emerald and the amethyst are all clearly marked and wonderfully blended, and seen in a good light there appears to be a prevailing background of purple.

The stone comes from the Opalton district of Western Queensland. It was dis-
