

FAVOR MONUMENT TO ROBERT BURNS.

Scotchmen in St. John Express Opinion of Fredericton Plan.

THEY LIKE IT WELL.

Some Would Go Even Further—Opinions of St. Andrew's Society Officials—Rev. Dr. Morison Tells of World-wide Burns Celebrations and Part St. John Took in Them.

The movement recently started by the St. Andrew's Society in Fredericton to erect a monument to Robert Burns in the Parliament square in that city at an estimated cost of \$5,000 has many warm friends and supporters here, if one may judge by the expressed opinions of the officials of St. Andrew's Society.

James F. Robertson, first vice-president of St. Andrew's Society, when seen Wednesday, said that he had given much thought to the scheme, but if instead of a monument Scotchmen would build a memorial hall in which they might hold their gatherings and which would serve as a home for their societies it would be much better.

B. R. Macaulay expressed himself with unqualified approval of the scheme. He thought that there should be a monument for Burns not only in Fredericton but in St. John as well. The movement was one which would commend itself not only to Scotchmen but to men of all nationalities who love liberty.

Rev. G. M. Campbell, chaplain of the society, said he thought the scheme to erect a monument to perpetuate the memory of Burns was a very wise and laudable thing for the sons of Scotland to accomplish. Not only would it serve to strengthen national and race ties but it would serve to keep the dead bard and his poetry prominently before them.

John White, treasurer of the society, likewise thought the scheme a good one, and one that was bound to be successful, through the patriotic feeling of Scotchmen all over New Brunswick.

Rev. Dr. Morison. In an interview Wednesday Rev. J. A. Morison said he was much pleased at the action taken by the St. Andrew's Society of Fredericton, especially when the fact is taken into account that Burns belongs to the same race as we, Scotchmen, and that to humanity at large. He is pre-eminently the poet of the people by reason of the fact that men find in him, as in no one else, the expression of divine truth, one day, the expression of man, the charm of his poetry lies chiefly in his broad sympathetic manliness combined with his perfect simplicity and sensibility.

World-wide Recognition. It would be an affection to say that the memory of Burns had been honored throughout the world. History tells us that on January 25th, 1858, the centenary of Burns was observed throughout the civilized world with most elaborate ceremonies. On that day Scotland alone reported 676 separate gatherings, England, seventy-six, Ireland, ten, and in the British dominions beyond the seas there were forty-eight. In the United States there were sixty-one while in the kingdom of Denmark there was a splendid banquet in the capital city, Copenhagen, a grand total all over the world of 872 gatherings to honor the memory of Burns.

IMPORTANT STEP IN FRUIT GROWING.

Government Experts to Plant and Direct Care of Orchards.

SEVERAL SITES CHOSEN.

Intended Ultimately to Have One in Each County, But Start Will Be Made With Four—The Plan of Operations.

The New Brunswick department of agriculture is preparing to operate a number of orchards or direct the operators, beginning next spring with the object of encouraging and bettering the fruit industry in this province. Arrangements have been made with the owners of several farms and the idea is ultimately to have one in every county. For the first year, however, but four or five will be conducted.

One will be at Bouchette, Kent county; another Mr. McKean's, son of Henry McKean, Florenceville, Carleton county; another R. V. Millidge's, St. John; and probably a fourth will be H. N. Arnold's, near Sussex.

T. W. Peters, deputy commissioner of agriculture came to the city yesterday afternoon after seeing Mr. Arnold about the matter. Arrangements were not wholly completed, but it is expected, will be so.

The plan is that the government purchase the trees and sends a man to direct the proper planting and laying out of the orchard. Carefully winter varieties of trees will be put in the ground as there is more soil fruit grown now than there is a market for. Apples will chiefly be raised. This will be cultivated from the trees being properly set out, the owner of the land must sign an agreement for ten years that he will not sell the orchard without the directions and instructions of the department of agriculture which will keep up the latest methods of horticulture.

The orchards will vary from one to two acres in extent and fifty to 100 trees will be planted. They will be set in rows each tree fifty feet from the next neighbor and some plants will be out in a space seven and a half feet in width and this will be kept absolutely free from growth. This will be cultivated from the trees. Before winter a cover growth of clover or some such grass will be planted in the orchard and will be cut and used as manure.

When the orchards are situated on the third floor. There are six semi-wards, in which several patients can be accommodated. The dining room is in the northeast and fitted up with the latest up-to-date apparatus and fitted up with baths, closets and other appliances.

The building will be lighted throughout with electricity in the most approved and up-to-date style. All the windows are furnished with plate glass. The heating apparatus is a very fine one. Spacious grounds surround the building and these will be transformed into a lawn. E. Neil Brodie, of St. John is the architect.

Personal Intelligence. John Vance of Eureka (Cal.), with his wife and three daughters, left for his west Wednesday afternoon. They have been in the city about a week. Mr. Vance is in the employ of the United States transport service between San Francisco and Manila, is home on a visit to his parents who reside Orange street. He is chief engineer of the transport Kilpatrick. He will leave Saturday to rejoin his ship at New York.

MONKTON'S HOSPITAL OPENED WEDNESDAY.

Many Prominent Men Attend the Ceremony.

THE BUILDING IS UP TO DATE IN EVERY PARTICULAR—IT COST \$20,000, AND IS ABOUT PAID FOR—A ST. JOHN MAN THE ARCHITECT.

Monkton, N. B., Nov. 11.—(Special)—Monkton's new hospital building was formally opened this afternoon by Premier Tveside in the presence of a large number of citizens.

Among the visitors present besides the Hon. Mr. Tveside, were Senators Wood, H. R. Emmerton, C. M. Legeve, M. P. P.; A. B. Cogg, M. P. P.; Sheriff McQueen, Warden Trueman. G. B. Willott, president of the hospital, presided at the opening of the hospital. The Hon. Mr. Tveside, in his address, said that the opening of the hospital was a very important step in the progress of the province.

The building is situated in the northeast corner. It is lighted with large windows as well as electric lights, and is fitted up with all the latest up-to-date apparatus. The building is lighted throughout with electricity in the most approved and up-to-date style.

SEIZURE REVOKED. A Masonic Story and Statement by Acting Collector of Customs. The Fredericton Herald of Wednesday published the following despatch: "St. John, N. B., Nov. 11.—There is a great sensation here in Masonic and customs circles over the seizure of the whole outfit of regalia at a meeting of Elburnia Lodge of Free Masons Tuesday evening.

During a discussion at the lodge meeting it came out that the regalia had been imported from the United States surreptitiously. "Custom Officer Dearness, who was a visiting Mason, present at the meeting, advised the regalia, despite fraternal ties."

Dr. Geo. F. Matthew, acting collector of customs, was seen Wednesday relative to this matter and said that the seizure had been revoked and should never have been made. Further than this he would not speak.

The dinner they gave at the Club has raised a gigantic hub-bub.

Relations between City Hall and the Social War Office are severely strained. The Colonel has put their foot in it. Deputy Mayor McGoldrick was entirely ignored in connection with the dinner to the officers of H. M. S. Pallis, at the Union Club. Of course it was a military dinner, and the deputy mayor does not wear a uniform, and might not be able to shoot "Tom" with that degree of un-intelligence which marks the true soldier.

William Evans. William Evans, an aged resident of Black River, died Tuesday evening. He was ninety-two years of age and leaves four sons, Thomas, messenger of the Bank of New Brunswick; Richard, of St. Andrews street; William and Walter, also three daughters—Mrs. John Wallace, of Chicago; Mrs. Geo. Dr. Shoop's Rheumatic Cure

Costs Nothing if it Fails.

Any honest person who suffers from Rheumatism is welcome to this offer. For years I searched everywhere to find a specific for Rheumatism. For nearly 20 years I worked to this end, but in vain. My search was rewarded. I found a powerful chemical that did not disappoint me as other Rheumatic prescriptions had disappointed physicians everywhere.

I do not mean that Dr. Shoop's Rheumatic Cure can turn bony joints into flesh again. That is impossible. But it will drive from your system the poison that causes pain, swelling, and then that is the end of the matter. I know this so well that I will furnish for a full month my Rheumatic Cure on trial. I cannot assure you a quick cure. It would be unwise to expect that. But most cases are cured in 30 days. This trial treatment will give you a mean of cure. Simply take one bottle for my Rheumatic Cure. I will then arrange with a druggist in your vicinity so that you can secure the bottles of Dr. Shoop's Rheumatic Cure on trial.

If it succeeds the cost to you is \$0.50. If it fails the loss is mine and mine alone. It will be left entirely to you. I mean that exactly. If it is not satisfactory I do not expect a penny from you. I have no samples. Any more sample that can afford chronic Rheumatism must be dragged to the verge of danger. I use no such drugs for it as dangerous to take them. You must get the disease out of the blood. My remedy does that even in the most difficult, obstinate cases. It has cured the oldest cases that I ever met and in all of my experience, in all of my 2000 cases, I never found another remedy that would cure one chronic case in ten. Write me and I will send you the book. Try my remedy for a month, for it can't harm you anyway. If it fails the loss is mine. Address, Dr. Shoop, Box 11, Racine, Wis.
