THE FAMOUS DARDANELLES.

THE STRAIT AND THE TREATY IN QUESTION.

"His majesty the sultan, on the one "volunteer fleet" to reach the Mediterpart, declares that he is firmly resolved to maintain for the future the principle invariably established as the ancient rule of his empire, and in virtue of which it has at all times been prohibited for the sultan. Ships of the Russian "volunteer fleet,"

Ships of the Russian "volunteer fleet," The passage is forty miles in length and varies from one to five miles in width. There is a bend at the narrowest point which offers excellent opportunity for effective fortifications. ships of war of foreign powers to enter the straits of the Dardanelles and of the Bosphorus; and that, so long as the porte is at peace, his majesty will admit no foreign ship of war into the said straits; and their majesties, the queen of the United Kingdom of Great Britain and Ireland, the emperor of Austria, the emperor of the French, the king of Prussia, the emperor of all the Russians and the king of parrow straits controlled by the Turk.

Ships of the Russian "volunteer fleet," asserted to be merely merchant vessels, have taken possession of one and have searched others. England is therefore exercised, as she has been before, at this attempt of Russia to override the provisions of successive treaties which for back have taken possession of one and have searched others. England is therefore exercised, as she has been before, at this attempt of Russia to override the provisions of successive treaties which for back have taken possession of one and have searched others. England is therefore a plunging fire upon hestile vessels are installed there for a distance of twenty miles.

On account of the narrow, tortuous channel any warship attempting to force the Turk.

treaty of Paris in 1856 at the close of the Crimean war, is the basis of the objections being made in Europe to the sultan, permitting Russian warships, called the

peror of all the Russians and the king of Sardinia on the other part, engage to respect this determination of the sultan and conform themselves to the principle above declared."

The above article, incorporated in the sultan and conform themselves are the principle above declared. It would be within the range of the local substitution of the sultan and conform themselves to the principle above declared. It would be within the range of the local substitution of the straits of Bosphorus lead to the Black Sea. Across the Dardanelles Leander swam to meet Hero, and the Asiatic sides of the straits. A recent report shows the strength of the

town, Dardanos, near the entrance. The passage is forty miles in length and varies from one to five miles in width. There is a bend at the narrowest point which offers excellent opportunity for effective was his magnificent work at the three long was his magnificent work at the three long.

Drawing to a Close-Work and Re-

creation, and All Enjoyed.

Charlottetown, July 28-This is the penultimate day of the summer school, penultimate day of the summer school, rounded by gay parties, including instructors as well as students of the school, and it was very amusing to watch the play of by Dr. Knight, of Queens University, their feelings as they received from time the marine biological station, who watched with interest a large class engaged in the budy and dissection of lobsters under the delightful outing and his remarks were direction of Mr. Oulton, of Moncton, and subsequently expressed himself as greatly pleased with the character of the work pleased with the character of the work

In the afternoon several parties were Point, while another—some twenty in number—enjoyed a delightful sail around the harbor. The latter is admirably suited for this recreation, being sufficiently broad to allow of long reaches without tacking, and being free from equalls, at the same time that it affords considerable variety of scenery, always beautiful, and many opportunities for convenient landing, if

at is remarkable now seldom one sees a stone about Charlottetown, except when they have been brought over from Nova Scotia for the purpose of macadamizing the streets. The rarity of boulders on the island is indicated by the fact that in the parliament square there is a single granite block resting on a pedestal, as though it was a distinguished stranger, though it was a distinguished stranger, and it has the magnificent dimensions of about four feet by two or three. What would the good islanders say if they could see the neighborhood of McAdam Junction or some of the boulders in the Schoodic lakes above Vanceboro, where fifteen feet to the side is no unusual occupance.

In the evening a moonlight excursion, greatly enjoyed. Probably about 100 in all were present. The evening was a beautiful one for the purpose. Shortly before starting a shower threatened to interfere with the success of the undertaking, but as this passed away the moon came out almost full and with just enough clouds to produce some very beautiful effects. The steamer sailed out of the harbor, past the

lighthouse and the lobster hatcheries, and so out to sea far enough to enable the party to make some practical studies upon the subjects of undulation, though without ill effects. During the evening light

refreshments were served and Mr. Barlow of the school staff gave some songs which were warmly applauded.

In the cabins the long tables were sur

PTC. PERRY.

at Bisley,

Canadian. There is no doubt, however, about the standing of Private Perry. He was born in the city of Toronto, and lived there until a few years ago, when he followed Horace Greeley's advice and went west locating in Vancouver. tory could hardly be considered that of a went west, locating in Vancouver. The victory is described as being the most popular in recent years. There is in Private Perry's record reason why it should seen active service in defence of the empire. Private Perry, then a member of the Royal Grenadiers, of Toronto, enlisted in the first Canadian contingent for service in South Africa, and was one of service in South Africa, and was one of the contingent for the world, was won by the American team last year, but was returned a few weeks guished itself by rushing Cronje's trenches at Paardeberg, and was later on wounded and invalided home. This in itself was sufficient to make the victory of the young Canadian a popular one. It was a notable victory, too. In the first stage, Private Perry was seven points behind the leader.

At the end of the second by the American team last year, but was returned a few weeks ago because of the unpleasant scandal which attached to the performance of the riflemen from the United States.

Canadians at Bisley.

Canadians made their first appearance at Wimbledon in 1872, a factor of the patched. There are high hills on either side, and 1,000 yards, that won him the great honor competition, won by Major Howard, the agent-general of Nova Scotia in London, that in other events he was well to the front. Following the victory of Loa Scholes, another Toronto boy, in the Diamond sculls at Henley, the big aquatic

event of the year, it demonstrates the kind of stuff that is in the Canadian boy.

The Mail and Empire says:-Private Perry's fine exploit at Bisley throws additional lustre on a year already made memorable for Canadians by Lou Sholes' victory at Henley. It would be an ungrateful and a useless task to compare the performances of these men, and declare one to be more worthy of applause than the other. Suffice it to say that both reflect the utmost honor on this country, and draw the eyes of the sporting cheque for £250, is the prize won by th man who hails from Vancouver.

Though the Diamond Sculls are comi tors in this great contest, and for the where than in England or Scotland. Hay home, and Hamilton people made a regular "Pretoria night" of it. That an equal than we of the effete cast. We are par ticularly glad to see this famous prize go to Vancouver. Hitherto our fellow countrymen on the Pacific coast have been they are apt to make a killing.

Some Bisley Records

Just what a triumph of marksmansh it is to win the King's prize may be judged from the fact that sometimes there are 2,400 contestants. Just how many number is not far short of 2,000. - In the

the final stage several times, and is reck-oned to be one of the best shots in the army. In 1897 and 1899 he won the Prince of Wales' prize, and has been on an in-

A J.W FROM POLAND

Rejoicas at the Assassination of the Kussian Minister — He Lives in St. John.

N. Stuart, F. Morgan, W. A. Cherry, and Mr. and Mrs. R. E. Campbell-Gompertz, Madras Presidency, South India, are registered at the Queen's hotel. These gentlemen have made a tour of this cosmother of the assassination of Von Plelave, the minister of the interior in St. Petersburg exeterday, aroused in any one in this city tittle more than a passing interest.

Yet, when the tragic nature of the Russian minister's death became known a young man in a Main street store expressed himself as delighted.

He is a Hebrew—eighteen years of age —lithe, curly haired, of peach complexion—in fact he is quite a handsome youth. He has been in Canada since April and he was a provenent of the pass been in Canada since April and for the pass been in Canada since April and for the place of the improvement.

SEARCHING FOR LANDS.

Correcting the Faults.

"One was slow in getting his one revolvet, another clipped—that is, silled to quickly, while another rolled a little to one side; another clipped—that is, in the sallow of the body on the water properly, but knifed, and another took his feather on the stroke—and still another held his feather of the wind the water properly, but knifed, and another took his feather of the wind to settle, but so far have not invested their money. They stated that in their view land was far too high in the northwest for the requirement of the surface on its modern of the hands and enabled the wind to settle, but knifed, and another feathered too low, and try, scurching for land on which to settle, on its minister's death became known a young man in a Main street store expressed himself as delighted.

The is a Hebrew

The Clipping Evil

He has been in Canada since April and came here direct from Warsaw, Poland. Since living here, and 'occoming familiar with what Canadian citizenship means, he has lost but few opportunities to make known his satisfaction.

When he learned yesterday of Von Plehve's tragic death he was so pleased that you would have thought the anarchist's victim was the lad's personal enemy. His large black eyes shone and his general deportment indicated that he was itching to make some kind of spectacular demonstration, but did not feel quite safe in so openely expressing his feelings. However, his emotional exhaust-pipe was created by means of speech. He cannot speak English, but to another Semite he
