Will Class One Provide The One Hundred Thousand Men?

It will be greatly to the advantage of Canada if the entire quota of 100,000 men to be raised under the Military Service Act can be secured from the first class; that is, from the men between the ages of 20 and 34 who were unmarried or widowers without children on July 6th, 1917.

This is almost self-evident for the following reasons:
It is admitted that, between the ages of 20 and 34, the average man is at the height of his physical strength and is most adaptable to the change of conditions from civilian life; the military service of unmarried men and widowers without children would occasion less distress than that of most others, since they are largely without dependents. Also, it would entail less financial burden for Canada, through separation allowances, etc.

Authorities estimate that, after all proper exemptions have been allowed, Canada should be able to produce from the first class 100,000 men fit for service, so the drain upon the man power of the country will not be severe.

Members of Class One will be well advised to present themselves for examination immediately to the Medical Board in their district. Upon examination as to their physical fitness, they will be placed in one of the following categories:

Category A — if fit for service overseas fighting units.
Category B — if fit for service overseas in Army Medical Corps, Forestry Battalion, etc.
Category C — if fit for service in Canada only.
Category D — if unfit for military service of any nature.

If not placed in Category A, the applicant will know that he is not liable for immediate service, but will go to the Post Office and send in a claim for exemption with his Medical Certificate attached, when he will receive in due course a certificate of exemption until those in his medical category are summoned for service.

Where a man, who is placed in category A, feels that exemption should be allowed, an application form can be secured from the postmaster. This form, when filled in, will be forwarded by the postmaster to the registrar of the district, and the applicant will be informed by mail as to the time and place for the consideration of his application by the Exemption Board.

Good as the Wheat.

"Good as the wheat" is an old motto, about as much the last word in meaning as "Safe as the Bank of England." A bag of No. 1 Northern, clean as a whistle of cockle and loxtail, was a symbol of sure value long before gold was known in the world. Wheat has been found in the Pyramids. The Egyptians just about worshipped wheat. The Bible calls it corn; so do the English. But when we say "good as the wheat" we refer to the bushel of brown, hard kernels worth by Government fixture this year, \$2.20. In the memory of living man when did "good as the wheat" mean more than it does now? Never. A bag of wheat weighing two bushels and a peck totted up in 1917 to just about the value of a five-dollar gold piece. But of course no man wants gold for his wheat. All he gets is a cheque made out in his favor on some bank and signed by the manager of some elevator company or milling concern. The cheque is converted into bills or goes on deposit. Good wheat; good paper; nobody asks any questions. Because the company is O. K. and the bank is sound. If any wheat-seller had any doubt of either he would at once demand something else. "I sold good wheat," he would say. "I want something as good in exchange."

What made the wheat good? The good farmer behind it. A poor farmer can make good seed into poor wheat. What makes the paper money good? The security of the corporation whose name it bears. The sounder the corporation, the nearer the paper comes to being as good as the wheat. But even a big company may go "broke." Back of the corporation is a concern whose guarantee on a piece of paper is better than either. The pledge of the Dominion of Canada to pay any man money for value received is as good as the wheat and as safe as the Bank of England.

The best pledge of the Dominion of Canada to pay is a Canadian Victory Bond; better than cheques or bills—AS GOOD AS WHEAT! Suppose you change that twenty bags of wheat on your wagon, not into a cheque or notes or even gold; but into Canadian Victory Bonds of \$50 each, bearing interest at five and one-half per cent. per annum and as negotiable on the market as the best cheque or the best load of wheat you ever saw? It's worth considering.

Think.
Before you ask a merchant to make a delivery
Send goods on approbation
Or incur other expense.
Is it necessary?
Delivery service is expensive, and ultimately YOU must pay for it. If the service is not necessary you are not only wasting your own money, but the resources of Canada as well.
Canada is in urgent need of economy.
Carry your parcel home.
There is an old engraving hanging in many homes depicting a young and ragged urchin stepping up to a lady and asking if he may carry her parcel. Times have changed. To-day the same little chap might have difficulty finding a parcel to carry; and why? Because fashion has decreed that we may

carry almost anything but a parcel. The result has been heavy delivery expense, which must be paid by the consumer, together with the same percentage of profit as is carried by the goods themselves. Because it does not show separately in the bill, it is not recognized as an additional cost. To a large extent merchants are to blame for this. If they were to adopt the 'cash and carry' system, giving a price advantage to those who paid cash and carried their parcels, requests for delivery would soon show a decrease.
