If OXO Cubes save you only 5 minutes per day—

that means the tremendous saving of about 30½ hours in the course of a year! Reason enough for using OXO Cubes if that was the only reason.

But they do more than save time, they save the expense of meat — make other foods go farther — and build up and maintain the health of the whole family.

A Cupful in a minute—the minute you want it!

Tins: 30c., 25c., $1.15, $2.25.
