

THE ADAMS' TRUSS ROD WAGON.

Manufactured only by

ADAMS & SON,
PARIS, ONT.

These celebrated wagons are so well known throughout the entire Dominion that it seems almost superfluous to enumerate their merits. THE TRUSS ROD used on this wagon is superior to any other so-called Truss Rod, because it is the only one that passes through the Skein, thus strengthening the axle without adding to the weight. THE HIND CROTCH is much longer than is usually found on any other wagon, thus strengthening the reach and causing the hind gear to run much steadier. THE TURN-OVER SEAT is something appreciated by all farmers when taking heavy loads of bagged grain; it is fitted with Iron Risers, Corner Plates, Seat Pockets and Front Hinges. Without doubt, the ADAMS TRUSS ROD WAGON is the Strongest, Best Proportioned, Best Made, Best Finished, and the Easiest Running Wagon in Canada.
