Ottawa, 4th

Sir:-

I enclose herewith for your information copy a letter which has been received by the Department from Benjamin Brooks of Middleton. The letter does not make clear the writers wishes, he appears to be dissatisfied with the medical services afforded Indians of Annapolis County, and it would also seem that he is desirous of having assistance in the way of seed, but, as stated, he has failed to make his meaning clear. The Department desires that you will look carefully into the matter and furnish a report and recommendation in regard thereto without delay.

Your obedient servant,

Asst. Deputy and Secretary.

John Lacy Esq.,  
Indian Agent,  
Annapolis, N.S.
